

**Subject card**

<b>Subject name and code</b>	Teaching practice I, PG_00082543						
<b>Field of study</b>	Chemistry						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>			2024/2025		
<b>Education level</b>	Master's studies	<b>Subject group</b>			Optional subject group		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	1	<b>Language of instruction</b>			Polish		
<b>Semester of study</b>	2	<b>ECTS credits</b>			2.0		
<b>Learning profile</b>	academic	<b>Assessment form</b>			credit		
<b>Conducting unit</b>	Division of Didactics and Popular Science -> Faculty of Chemistry -> Rector						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr Bożena Karawajczyk				
	<b>Teachers</b>		dr Bożena Karawajczyk				
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	0.0	60.0	0.0	0.0	0.0	60
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	60		2.0		10.0	72
<b>Subject objectives</b>	To use the acquired knowledge of didactics in practical action To learn about the experience of working as a chemistry teacher in an elementary or secondary school						

Learning outcomes	Course outcome	Subject outcome	Method of verification
		<p>Learning outcomes in accordance with the Announcement of the Minister of Science of February 9, 2024 on the announcement of the consolidated text of the Regulation of the Minister of Science and Higher Education on the standard of education preparing for the teaching profession.</p> <p>In terms of knowledge, the graduate knows and understands:  D.2/E.2.W1. the teaching tasks carried out by a school or an institution of the educational system;  D.2/E.2.W2. the way of functioning and organization of the didactic work of a school or educational system institution;  D.2/E.2.W3. the types of documentation of teaching activities carried out in a school or an educational system institution;</p> <p>In terms of skills, the graduate is able to:  D.2/E.2.U1. draw conclusions from observation of the teacher's teaching work, his/her interaction with students and the way of planning and conducting didactic classes;  actively observe the methods and forms of work used by the teacher and the teaching aids used, as well as the ways in which students are assessed and assigning and checking homework;  D.2/E.2.U2. plan and conduct, under the supervision of the supervisor of professional practice, a series of lessons or activities;  D.2/E.2.U3. analyze, with the assistance of the professional practice supervisor and academic teachers conducting classes in the field of psychological and pedagogical preparation, pedagogical situations and events observed or experienced during practice.</p> <p>In terms of social competence, the graduate is ready to:  D.2/E.2.K1. effectively cooperate with the supervisor of professional practice and teachers in order to expand their teaching knowledge and develop their skills educational skills.</p>	[SU7] entries and opinions in the internship diary [SK7] entries and opinions in the internship diary
Subject contents	<ul style="list-style-type: none"> <li>- the specifics of the school where the practice is carried out</li> <li>- observation of the activity of the teacher and students in various pedagogical situations</li> <li>- planning and conducting teaching classes in chemistry (using a variety of teaching methods, forms of work, organizing the material environment of classes)</li> <li>- Diagnosis of the level of knowledge and skills of students; assessment of students' work</li> <li>- analysis and interpretation of observed or experienced pedagogical events</li> </ul>		
Prerequisites and co-requisites	Credit for the subjects: Didactics of Chemistry - Conversation I, Didactics of Chemistry - project work and student work, as well as completion of professional (pedagogical) practice.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	evaluation from the quality of the prepared documentation	50.0%	100.0%
	evaluation issued by the school	50.0%	100.0%

Recommended reading	Basic literature	Curriculum basis for the subject Chemistry at all stages of education (available on the website of the Ministry of Education) Current textbooks approved by the Ministry of Education for teaching chemistry in elementary and secondary school Current documents in force: The Law on Education and the Teacher's Charter (available on the website of the Ministry of Education)
	Supplementary literature	A. Burewicz, H. Gulińska (red.), "Dydaktyka chemii", Wydawnictwo naukowe UAM, 2002
