	[E.3WW.U.4] Is able to analyse, with the help of the internship supervisor and academic teachers conducting classes in the field of psychological and pedagogical preparation, pedagogical situations and events observed or experienced during the internship	The student is able to analyze, with the help of the internship supervisor, pedagogical situations and events observed or experienced during the internship	[SU6] demonstration of practical skills [SU7] entries and opinions in the internship diary [SU8] observation of student's independent or team work
	[E.3WW.U.3] Is able to plan and conduct classes under the supervision of a professional internship supervisor	The student is able to plan and conduct activities under the supervision of the internship supervisor	[SU6] demonstration of practical skills [SU7] entries and opinions in the internship diary [SU8] observation of student's independent or team work
	[E.3WW.U.2] Is able to draw conclusions from observations of how teachers integrate care, education and teaching activities.	The student is able to draw conclusions from the observation of how to integrate care and teaching activities	[SU6] demonstration of practical skills [SU7] entries and opinions in the internship diary [SU8] observation of student's independent or team work
	[E.3WW.U.1] Is able to draw conclusions from observing teachers' work, their interactions with children and students and the way they plan and conduct teaching, educational and care activities	The student is able to draw conclusions from observations of teachers' work, their interactions with children and students, and the way they plan and carry out teaching, parenting and care activities, as well as in early development support	[SU6] demonstration of practical skills [SU7] entries and opinions in the internship diary [SU8] observation of student's independent or team work
	[E.3WW.K.1] is ready to cooperate effectively with the internship supervisor and teachers in order to expand his/her knowledge	The student is competent to interact effectively with the internship supervisor and teachers to expand his/her knowledge in working with children with disabilities (including early childhood development support)	[SK6] demonstration of practical skills [SK7] entries and opinions in the internship diary [SK8] observation of student's independent or team work

Subject contents	Getting to know the specifics of the workshop of a teacher/special educator within the specialty in the institutions appropriate to it, getting to know the organizational principles of the institution, observation of students during various activities, observation and assistance during educational and therapeutic activities, learning about various forms and methods of work. Confronting the acquired psychological and pedagogical knowledge with the reality of pedagogical reality in practical action and the formation of attitudes and personal qualities necessary for the work of a special educator. An important goal is the student's verification of his pedagogical and therapeutic interests and motivation to work with people with special needs educational needs. Acquisition, within a given specialty, of the ability to conduct classes appropriate to it. At least 60% of the total hours must be realized as an assistant practice, which also includes independent teaching. The student should: - obtain information about the activities of the institution, - learn about the workshop of the teacher/therapist, and: - have the opportunity to confront the theoretical knowledge gained during the course of study with reality, - verify their pedagogical and therapeutic interests and motivation to work with people with special educational needs, - have the opportunity to test their own professional skills, as well as to realize creative ideas, The practice is also intended to shape the attitudes and personal qualities necessary in a special educator
