Learning outcomes

Course outcome	Subject outcome	Method of verification
[HISTMU2_W02] Has in-depth knowledge of the methods and problems of research in selected fields of history, such as political history, social history, economic history, cultural history, regional history, family history, gender history, etc.	The student has in-depth knowledge of research methods and research problems applied in the study of the history of European integration and the development of European Union law, with particular emphasis on political, social, economic, and intellectual history. The student understands the importance of historical, comparative, and interdisciplinary perspectives in research on EU law, including the impact of social, cultural, and regional processes on the formation of European legal and institutional structures.	[SW4] test/exam - oral or written
[HISTMU2_W07] Knows and understands the fundamental dilemmas of modern civilisation	The student has knowledge and understanding of the fundamental dilemmas of contemporary civilization related to the process of European integration, in particular the tensions between state sovereignty and supranational integration, the protection of fundamental rights and security, as well as the uniformity of EU law and the cultural and constitutional diversity of the Member States. The student is able to analyse these dilemmas in the context of the development of European Union law and current political, social, and economic challenges.	[SW4] test/exam - oral or written
[HISTMU2_U09] Can independently plan and implement their own lifelong learning and guide others in doing so	the student is aware of the changing EU law and the need to expand their knowledge in this area	[SU1] oral statement/conversation/ discussion
[HISTMU2_K01] Is ready to critically evaluate the knowledge he possesses and the content he receives	the student is aware of the need to update their knowledge of the EU	[SK1] oral statement/conversation/ discussion

Subject contents

The historical dimension of European integration (integration concepts until World War II, the origins of integration and its course, the founding fathers of the European Communities), the EU institutional system (characteristics of the most important EU institutions, their evolution and competences), the socio-cultural dimension of European integration, the legal dimension of European integration (characteristics of EU law, treaty bases for the functioning of the EU, primary law, secondary law, analysis of excerpts from the Treaty on European Union, the Treaty on the Functioning of the European Union and the Charter of Fundamental Rights of the European Union), the economic dimension of European integration (EEC, economic and monetary union), the political dimension of European integration (foreign and security policy of the European Union, internal dimension of European political integration), Poland's integration with the European Union (reasons, preparations, legal basis, benefits and negative effects of EU accession).

Prerequisites and co-requisites
