

Subject card

Subject name and code	Regional geography of the world (economic) - laboratory, PG_00119824						
Field of study	Geography						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2027/2028		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		1.0		
Learning profile	academic		Assessment form				
Conducting unit	Division of Regional Development -> Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Małgorzata Pacuk				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	15.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		3.0		12.0	30
Subject objectives	Understanding the processes of international integration in Europe, learning about the physical-geographical, historical and socio-economic conditions of the development of European countries knowledge of the spatial differentiation of contemporary socio-economic processes on a regional scale, ability to identify the effects and risks of regional development.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GEOGRL3-W04] to an advanced degree the social, economic and political differentiation of the world, as well as the social, economic and political characteristics of countries and regions, especially northern Poland and the Pomeranian Voivodeship, understands the socio-economic transformations taking place in the modern world	has an advanced understanding of the diverse nature of the world in terms of socio-economic and political world and the changes it is undergoing, particularly at national and regional level.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW3] text preparation/written work
	[GEOGRL3-U02] formulate and analyze basic problems concerning changes in physical and geographic conditions and the social, economic and political situation in local, regional and global scales	identifies and analyses basic problems relating to changes in natural conditions and the social, economic and political situation on a local and regional scale	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU3] text preparation/written work
	[GEOGRL3-U08] use scientific language and express themselves and discuss topics concerning geographic issues in Polish and in a foreign language	uses scientific language, expresses himself and discusses topics concerning geographical issues in Polish	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU3] text preparation/written work
	[GEOGRL3-W06] interactions between the natural and anthropogenic environment at different spatial and temporal scales, in particular the processes and phenomena occurring in the area of the South Baltic Coastal and Lake District and the determinants of these interactions	Students will understand the interactions between the natural and anthropogenic environment at different time scales on a regional basis.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW3] text preparation/written work
	[GEOGRL3-U03] use theoretical knowledge of geographic sciences and available sources of information to correctly interpret basic natural, social, economic and political processes	uses theoretical knowledge of geographical sciences and available sources of information to correctly interpret basic socio-economic and political processes and phenomena on a regional basis.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU3] text preparation/written work
Subject contents	Exercise topics: differentiation of physical-geographical and socio-economic phenomena in European regions (countries)		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	written work	51.0%	40.0%
	oral statement	51.0%	20.0%
	presentation	51.0%	40.0%
