

Subject card

Subject name and code	Geographical determinants of spatial planning, PG_00119879						
Field of study	Geography						
Date of commencement of studies	October 2025		Academic year of realisation of subject			2027/2028	
Education level	Bachelor's studies		Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study	
Mode of study	full-time studies		Mode of delivery			at the university	
Year of study	3		Language of instruction			Polish	
Semester of study	5		ECTS credits			2.0	
Learning profile	academic		Assessment form			credit	
Conducting unit	Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Oleksandr Radchenko				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	20.0	0.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		12.0		18.0	50
Subject objectives	Awareness of the practical role of geography in shaping public space						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GEOGRL3-W04] to an advanced degree the social, economic and political differentiation of the world, as well as the social, economic and political characteristics of countries and regions, especially northern Poland and the Pomeranian Voivodeship, understands the socio-economic transformations taking place in the modern world	K_W04: natural and anthropogenic factors affecting the formation of space at different spatial scales curricular content A1-A10	[SW2] presentation/project/paper/report
	[GEOGRL3-W06] interactions between the natural and anthropogenic environment at different spatial and temporal scales, in particular the processes and phenomena occurring in the area of the South Baltic Coastal and Lake District and the determinants of these interactions	K_W06: interactions that occur between the various elements of the geographic environment, affecting the formation of space at different scales, curriculum content A1-A10	[SW2] presentation/project/paper/report
	[GEOGRL3-W03] in an advanced degree the processes and phenomena occurring in the natural environment of the Earth, with particular emphasis on the processes and phenomena occurring on the territory of Poland, especially the Coastal and South Baltic Lake Districts	K_W03: in an advanced degree the processes and phenomena occurring in the geographical environment, shaping the various functions of geographical space, program content A1-A10	[SW2] presentation/project/paper/report
	[GEOGRL3-W05] Has advanced knowledge of the environment Earth's geographic environment, understood as a unified system of interrelated and interacting each other's components; its diversity, functioning and dynamics of change, including the mutual interaction of environmental components in the area of South Baltic Coastal and Lake Districts	K_W05: has advanced knowledge of geographic space as a system of interrelated and interacting components; its differentiation, functioning and dynamics of change at different spatial scales, curriculum content A1-A10	[SW2] presentation/project/paper/report
Subject contents	1. Links between geography and socio-economic reality 2 Examples of practical function of geography - informational function 3 Examples of practical function of geography - explanatory and theoretical function 4 Examples of practical function of geography - diagnostic function 5 Examples of practical function of geography - decision-making function 6 Examples of practical function of geography - cultural and educational function 7 Conflicts in the management of environmental goods 8 The role of geography in resolving conflicts in space 9. External determinants of the role of geography in the formation of space 10. Internal determinants of the role of geography in shaping space		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	lecture (presentation)	51.0%	100.0%
