

Subject card

Subject name and code	, PG_00120916						
Field of study	Geology						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Bachelor's studies		Subject group		Optional subject group		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish poland		
Semester of study	1		ECTS credits		2.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Division of Classical Philology -> Institute of Classical and Slavonic Studies -> Faculty of Languages -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		mgr Elżbieta Starek				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
	Additional information: multimedia presentation						
	gamification elements						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		22.0	54
Subject objectives	Introduction to Latin as the basic language of science used for centuries also in natural sciences, including geology. Discussion of the etymology of geological terms used in contemporary science.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[GEOLL3_K03] is willing to exercise caution and criticism in receiving information from scientific literature, the Internet and other media related to natural sciences		Critically assesses their knowledge, demonstrates a willingness to constantly expand it and consults the instructor in case of difficulties with solving problems independently.		[SK1] oral statement/conversation/discussion [SK8] observation of student's independent or team work		
	[GEOLL3_U02] has the skill of analytical and synthetic way of reasoning leading to correct inference based on the results obtained or the facts presented		is able to systematically expand and update their knowledge of Latin		[SU1] oral statement/conversation/discussion [SU8] observation of student's independent or team work		
	[GEOLL3_W02] knows and understands the terminology appropriate in science and natural sciences		knows the etymology of geological terms borrowed from Latin and Greek, knows and understands the Latin alphabet and the rules of reading		[SW1] oral statement/conversation/discussion		

Subject contents	Class topics 1. Latin terms of Greek origin used in the terminology of individual Earth science disciplines names of periods in Earth's history, minerals, elements, etc. 2. Latin vocabulary most commonly used in taxonomic descriptions. Nouns and adjectives describing individual species of animals and plants. Numerals. 3. Explanation of commonly used Latin phrases and expressions as well as abbreviations used in academic works (footnotes, bibliography). 4. English scientific terms in the field of geology borrowed from Latin.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	class participation	75.0%	30.0%
	oral statement	51.0%	70.0%
Recommended reading	Basic literature	Smagowicz K., 2004. Mantichora. Etymological dictionary of animal names, Krakow	
	Supplementary literature	Stearn W. T.,1966. Botanical Latin. History. Grammar, Syntax, Terminology and Vocabulary, London	
	eResources addresses		
Example issues/ example questions/ tasks being completed	Latin terms of Greek origin used in the terminology of individual Earth science disciplines names of periods in Earth's history, minerals, elements, etc.		
Work placement	Not applicable
