

Subject card

Subject name and code	Maritime search and rescue, PG_00131541						
Field of study	Marine Hydrography						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2028/2029		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		2.0		
Learning profile	practical		Assessment form		credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Piotr Bekier				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	26.0	0.0	0.0	0.0	0.0	26
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	26		4.0		20.0	50
Subject objectives	Providing knowledge in the field of: tasks, principles of saving life at sea; basic technical characteristics of SAR measures; rules of cooperation with rescuers; organization of ship rescue servicein a situation of direct threat to the ship and crew						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[HML3-W16] engineering standards and norms specific to the field of study, in particular those recommended by IHO and IMO		knows: - legal basis, organization and operating procedures of SAR services - emergency procedures used in sea rescue, rules of cooperation with SAR services - rescue procedures used on vessels - ship's rescue and salvage equipment - principles of human survival at sea and on life - saving equipment - technical charakteristics of SAR measures - signals and ways of calling for help		[SW4] test/exam - oral or written		
	[HML3-K01] correctly identify and resolve professional dilemmas, especially in the aspects of security and entrusted property		is ready to: - cooperation with ship's crew in the operation of the ship's rescue equipment - cooperation with ship's crew and rescue services in the use of rescue procedures		[SK4] test/exam - oral or written [SK8] observation of student's independent or team work		

Subject contents	1. Organization of the Maritime Search and Rescue Service in Poland and abroadBaltic Sea. 2. Equipment for lifeboats, liferafts and rescue boats. 3. Boat, life raft and rapid rescue launching systems. 4. Methods of evacuating people from endangered cargo ships. 5. Methods of evacuating people from endangered passenger ships and ferries. 6. Behavior of survivors on ship's life-saving equipment. 7. Principles of human survival in the sea. 8. Emergency procedures used in rescue services. 9. Conduct in danger. 10. Global search and rescue methods.		
Prerequisites and co-requisites	Subject required by the Regulation of the Minister of Infrastructure and Development of February 5, 2014, on framework training programs and examination requirements for deck department seafarers (i.e., Journal of Laws 2023, item 1566): attendance at all classes is mandatory. AMW allows students to make up for up to 20% of excused absences from these classes in a form that enables them to acquire the missing knowledge and skills. Students who have passed the course but, due to absences exceeding 20% of classes or failure to make up for classes in a form that allows them to obtain the missing knowledge and skills, do not receive an entry in the supplement confirming completion of studies recognized at the operational level in coastal shipping.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	test	51.0%	100.0%
Recommended reading	Basic literature	1. CZAJKOWSKI J., PŁAWSKI A.: Alarmowanie i naprowadzanie na rozbitków w Systemie GMDSS. Gdynia 1995. 2.
