	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	10		5.0		10.0	25
Subject objectives	The aim of the course is to demonstrate the importance of introducing the principles of social responsibility into socio-economic life by familiarizing students with the sources of moral values and norms in contemporary ethical codes. Explaining the assumptions of the sustainable development concept will enable the inclusion of development principles in the decision-making criteria and will indicate the need for reliable research and will allow understanding the socially responsible concept in the field of technology and innovation, as well as the development of good employee relations.						
Learning outcomes	Course outcome		Subject outcome		Method of verification
