

Subject card

Subject name and code	Master's thesis seminar II, PG_00120311						
Field of study	Oceanography						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		5.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Luiza Bielecka				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	70.0	0.0	0.0	70
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	70		30.0		25.0	125
Subject objectives	Familiarizing students with the specificity of work in a research laboratory and in the field at sea and on land, using research equipment necessary to complete their master's thesis; mastering research methods related to the implementation of a master's thesis, designing research as part of a master's thesis.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[OCEANMU2-K03] is ready to effectively organize his/her own work, is active and persistent and punctuality in completing tasks, is ready to carrying out evaluation of their own activities		Is ready to effectively organize his/her own work, is active and persistent and punctuality in completing tasks assigned by the teacher, is ready to carrying out evaluation of their own activities		[SK8] observation of student's independent or team work		
	[OCEANMU2-W01] knows and understands in-depth specialized terminology used in oceanography and related sciences (in Polish and a selected foreign language)		Knows and understands in-depth specialized terminology used in oceanography and related sciences (in Polish, English and/or Latin), with particular emphasis on marine sciences in the field of biological oceanography		[SW1] oral statement/conversation/discussion [SW5] implementation of a problem task		
	[OCEANMU2-U05] is able to use source information in Polish and a selected foreign language, including archival and electronic databases, in the field of oceanographic issues, performs critical analysis and synthesis of information		Is able to use source information in Polish and English, including archival and electronic databases, in the field of oceanographic issues, performs critical analysis and synthesis of information		[SU1] oral statement/conversation/discussion [SU5] implementation of a problem task [SU8] observation of student's independent or team work		

Subject contents	The topics of classes and the scope of research tasks - laboratory, field and literature - are determined individually by the student with the supervisor of the master's thesis, in accordance with the topic and specificity of the master's thesis.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	The level of advancement of research conducted as part of the master's thesis	51.0%	100.0%
Recommended reading	Basic literature	The literature is selected individually for the student, in accordance with the instructions of the master's thesis supervisor.	
	Supplementary literature	The literature is selected individually for the student, in accordance with the instructions of the master's thesis supervisor.	
	eResources addresses		
Example issues/ example questions/ tasks being completed			
Work placement	Not applicable
