

Subject card

Subject name and code	Seminar III, PG_00117838						
Field of study	Oceanography						
Date of commencement of studies	October 2025		Academic year of realisation of subject			2026/2027	
Education level	Master's studies		Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study	
Mode of study	full-time studies		Mode of delivery			at the university	
Year of study	2		Language of instruction			Polish	
Semester of study	3		ECTS credits			4.0	
Learning profile	academic		Assessment form			credit	
Conducting unit	Department of Geophysics -> Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		prof. dr hab. Jarosław Tęgowski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		50.0		25.0	105
Subject objectives	Implementation of subsequent stages of the master's thesis						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[OCEANMU2-W01] knows and understands in-depth specialized terminology used in oceanography and related sciences (in Polish and a selected foreign language)	knows and understands in-depth specialist terminology used in oceanography, particularly in the field of marine geology (in Polish, English and/or Latin)	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[OCEANMU2-U08] is able to prepare a study of a given issue/ problem in Polish and a selected foreign language in written form (short scientific text, documented research work) and orally (paper, presentation) and discuss with specialists on topics related to oceanographic issues, with particular emphasis on the studied specialty	is able to prepare a study in Polish and English of a selected issue within the scope of the subject of the master's thesis in written form (summary and subsequent chapters of the master's thesis) and oral form (paper, presentation of the results of subsequent stages of the master's thesis implementation)	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
	[OCEANMU2-U05] is able to use source information in Polish and a selected foreign language, including archival and electronic databases, in the field of oceanographic issues, performs critical analysis and synthesis of information	is able to use source information, in Polish and English, including archival and electronic databases, within the scope of the master's thesis, performs critical analysis and synthesis of information	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
	[OCEANMU2-K04] is ready to critically evaluate his/her knowledge and received content in the field of natural sciences in particular in the field of the studied specialty, a in problematic situations, supports oneself with knowledge experts	is ready to critically evaluate the knowledge he/she has and the content he/she receives in the scope of his/her master's thesis, and in problematic situations, support himself/herself with the knowledge of his/her master's thesis supervisor	[SK1] oral statement/conversation/ discussion [SK2] presentation/project/paper/ report
	[OCEANMU2-W05] knows and understands the principles of planning and conducting field and laboratory research as well as advanced methods and tools of scientific research, especially in the field of the studied specialty	knows and understands in depth the principles of planning work related to the implementation of the master's thesis	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[OCEANMU2-W09] knows and understands legal regulations regarding intellectual property rights and their application in scientific work	knows and understands the basic legal regulations regarding intellectual property rights and their application in creating a master's thesis	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[OCEANMU2-K03] is ready to effectively organize his/her own work, is active and persistent and punctuality in completing tasks, is ready to carrying out evaluation of their own activities	is ready to effectively organize his/ her own work in order to complete the master's thesis, actively and on time to complete subsequent stages of the master's thesis and draws conclusions based on self-analysis	[SK1] oral statement/conversation/ discussion [SK2] presentation/project/paper/ report
	[OCEANMU2-U12] can independently expand and update oceanographic knowledge when planning and developing a professional career, as well as motivates others to deepen their knowledge	is able to independently expand and update knowledge in the field of the subject of the master's thesis, planning and developing one's own professional career	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
	[OCEANMU2-W03] knows and understands research methods used in oceanography and related sciences	knows and understands in depth the research methods used in the master's thesis in the field of oceanography, in particular marine geology	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[OCEANMU2-U04] is ready to develop in an analytical and synthetic way research and analysis results and based on them creating conclusions	is able to analytically and synthetically develop the results of research and analyses conducted for the purpose of completing a master's thesis and, on their basis, draw correct conclusions	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
	[OCEANMU2-U02] can use scientific terminology fluently and appropriately in presenting and discussing problems in the field of oceanography	can use scientific terminology fluently and appropriately in presenting and discussing problems in the field of marine geology	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report

	Course outcome	Subject outcome	Method of verification
	[OCEANMU2-K02] is ready to take full responsibility in terms of actions taken and compliance with professional ethics and principles intellectual honesty, is aware of the importance of a professional approach in every situation	is ready to take full responsibility for the actions taken and to comply with the principles of intellectual honesty in the implementation of the master's thesis, is aware of the importance of a professional approach in every situation	[SK1] oral statement/conversation/ discussion [SK2] presentation/project/paper/ report
Subject contents	Selected issues within the scope of the research topics implemented as part of the master's thesis		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Based on the prepared oral presentation and activity during classes.	51.0%	100.0%
Recommended reading	Basic literature	To be agreed individually with the thesis supervisor	
	Supplementary literature	To be agreed individually with the thesis supervisor	
	eResources addresses		
Example issues/ example questions/ tasks being completed			
Work placement	Not applicable
