

Subject card

Subject name and code	Seminar I, PG_00120360						
Field of study	Oceanography						
Date of commencement of studies	October 2025		Academic year of realisation of subject			2025/2026	
Education level	Master's studies		Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study	
Mode of study	full-time studies		Mode of delivery			at the university	
Year of study	1		Language of instruction			Polish	
Semester of study	1		ECTS credits			4.0	
Learning profile	academic		Assessment form			credit	
Conducting unit	Laboratory of Marine Geology -> Department of Chemical Oceanography and Marine Geology -> Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Małgorzata Witak				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		20.0		50.0	100
Subject objectives	Learning about the issues of the Master's thesis based on literature sources.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[OCEANMU2-U08] is able to prepare a study of a given issue/ problem in Polish and a selected foreign language in written form (short scientific text, documented research work) and orally (paper, presentation) and discuss with specialists on topics related to oceanographic issues, with particular emphasis on the studied specialty	is able to prepare a thesis outline and an oral presentation (paper) and to discuss topics related to the thesis	[SU2] presentation/project/paper/ report
	[OCEANMU2-U02] can use scientific terminology fluently and appropriately in presenting and discussing problems in the field of oceanography	can be fluent and properly apply scientific terminology in presenting and discussing problems in the field of marine geology	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
	[OCEANMU2-W05] knows and understands the principles of planning and conducting field and laboratory research as well as advanced methods and tools of scientific research, especially in the field of the studied specialty	knows and understands in depth the principles of planning and conducting field and laboratory research and the applied research methods and tools necessary to carry out the chosen master's thesis	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[OCEANMU2-W01] knows and understands in-depth specialized terminology used in oceanography and related sciences (in Polish and a selected foreign language)	knows and understands, at an advanced level, the terminology used in marine geology in field of master's thesis and related sciences (in Polish and selected foreign language)	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[OCEANMU2-U05] is able to use source information in Polish and a selected foreign language, including archival and electronic databases, in the field of oceanographic issues, performs critical analysis and synthesis of information	is able to use source information, in Polish and in selected foreign language, including archival and electronic geological databases, in the field of master's thesis, he/she performs critical analysis and synthesis of information	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
	[OCEANMU2-W09] knows and understands legal regulations regarding intellectual property rights and their application in scientific work	knows and understands legal regulations in the field of intellectual property rights and their application in the master's thesis	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[OCEANMU2-U12] can independently expand and update oceanographic knowledge when planning and developing a professional career, as well as motivates others to deepen their knowledge	knows and understands in depth the specialised terminology used in marine geology relevant to the topic of the thesis and related sciences (in Polish, English and/or Latin)	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
	[OCEANMU2-K02] is ready to take full responsibility in terms of actions taken and compliance with professional ethics and principles intellectual honesty, is aware of the importance professional approach in every situation	is willing to bear full responsibility in the scope of actions taken and to comply with the principles of professional ethics and the principles of intellectual honesty in the completion of the thesis	[SK1] oral statement/conversation/ discussion [SK2] presentation/project/paper/ report
	[OCEANMU2-K03] is ready to effectively organize his/her own work, is active and persistent and punctuality in completing tasks, is ready to carrying out evaluation of their own activities	is ready for effective organisation of his/her own work, he/she is active and is characterised by perseverance and timeliness in the implementation of tasks, he/she is self-critical and draws conclusions on the basis of self-analysis	[SK1] oral statement/conversation/ discussion [SK2] presentation/project/paper/ report
Subject contents	Selection of the problem area pursued in the thesis. Characteristics of the chosen area of research. Principles of correct preparation of literature list in scientific works. Construction of the thesis Presentation of selected geological aspects in the form of a verbal presentation. Dissertation outline.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	presentation	51.0%	100.0%
Recommended reading	Basic literature	To be individually agreed with the thesis supervisor.	
	Supplementary literature	To be individually agreed with the thesis supervisor.	
	eResources addresses		

Example issues/ example questions/ tasks being completed	1. Present the problem statement of the thesis. 2. Describe the materials and methods used in the thesis.
Work placement	Not applicable

Document generated electronically. Does not require a seal or signature.
