	E-learning hours included: 0.0					
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM	
	Number of study hours	30	0.0	220.0	250	
Subject objectives	The aim of the course is to prepare students for the independent development of a diploma thesis of a scientific or practical nature, involving the analysis of a selected problem in the field of tax law, finance or accounting. Students develop the ability to formulate research questions, apply appropriate analytical methods and present results that are substantively and formally correct. The course also aims to enhance critical thinking, independent research and evaluation of sources, as well as the ability to engage in creative academic discussion.					

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PiDPMU2_WK06] knows and understands the concepts and principles of industrial property protection and copyright	The student knows and understands the concepts and principles of industrial property protection and copyright law, including rights to research results, scientific works and educational materials. They can identify the relevance of these principles in preparing, publishing and protecting the diploma thesis and in professional activity, while respecting ethical and legal standards.	[SW1] wypowiedź ustna/rozmowa/dyskusja [SW3] opracowanie tekstowe/praca pisemna
	[PiDPMU2_UK03] is able to communicate on specialized legal, financial, balance sheet and tax topics with diverse audiences, as well as conduct a debate on the problems of applying the law of public levies, finance and accounting	The student is able to communicate on specialist topics in the fields of public levy law, finance, accounting and tax law with diverse audiences, including both experts and non-specialists. They can present their position clearly, logically and precisely, justify it using academic and practical sources, and participate in debates on the application of public levy law, finance and accounting by presenting and evaluating different viewpoints and interpretations.	[SU1] wypowiedź ustna/rozmowa/dyskusja [SU3] opracowanie tekstowe/praca pisemna
	[PiDPMU2_UW01] is able to use the theoretical knowledge in the field of public levies law and accounting and related scientific disciplines in order to formulate and solve complex and unusual problems (e.g. validation and interpretation problems related to the application of public levies law, tax analysis problems or balance sheet problems), in including innovative performance of tasks in unpredictable conditions by: - appropriate selection of sources (including in particular normative acts, doctrinal literature and case law) and information derived from them, assessment, critical analysis, synthesis, creative interpretation and presentation of this information, - selection and use of appropriate methods and tools (including advanced information and communication techniques, as well as methods and tools independently adapted or developed from scratch, e.g. the use of advanced methods of legal interpretation using electronic databases of case law and literature to solve problems related to the application of public levies law)	The student can apply theoretical knowledge in the field of public levy law and accounting, as well as related disciplines, to formulate and solve complex and atypical problems, including validation and interpretation issues related to the application of public levy law, and problems of tax and accounting analysis. They can properly select sources (normative acts, doctrinal writings, case law) and information derived from them, perform evaluation, critical analysis, synthesis, creative interpretation and presentation. The student is able to select and apply suitable methods and tools, including advanced ICT techniques, as well as independently adapted or newly developed methods – for example, using electronic databases of case law and literature to solve complex legal and economic problems.	[SU1] wypowiedź ustna/rozmowa/dyskusja [SU3] opracowanie tekstowe/praca pisemna

	Course outcome	Subject outcome	Method of verification
	[PiDPMU2_KK01] understands the complexity of problems occurring in the field of public levies law, finance and accounting and related disciplines and is therefore ready to critically evaluate the knowledge acquired in this area and the received content, understands the importance of knowledge in solving cognitive and practical problems and - in the event of difficulties with solving them independently problem - seeking the opinion of experts dealing with public levies law, finance, accounting and related disciplines (especially scientists, experienced tax advisors, accountants, lawyers dealing with disciplines other than tax and accounting law), and, if necessary, also expert specialists in disciplines other than legal and economic sciences	The student understands the complexity of issues in the field of public levy law, finance and accounting as well as related disciplines. They are ready to critically assess their knowledge and received information, understand the importance of knowledge in solving cognitive and practical problems, and – when unable to solve a problem independently – can consult experts in public levy law, finance, accounting and related fields (including scholars, tax advisors, accountants and lawyers from other areas) and, if necessary, specialists from other disciplines. The student follows the principles of professional and academic ethics and is prepared to work in an interdisciplinary environment.	[SK1] wypowiedź ustna/rozmowa/dyskusja [SK3] opracowanie tekstowe/praca pisemna
	[PiDPMU2_UW02] is able to formulate and test hypotheses related to simple research problems regarding the application of public levies law, tax analysis or accounting	The student is able to formulate and test hypotheses related to simple research problems in the field of public levy law, tax analysis or accounting. They can select appropriate research methods and tools, conduct data analysis, interpret results and draw conclusions. The student is able to justify their position with reference to applicable legal regulations, academic literature and economic practice.	[SU1] wypowiedź ustna/rozmowa/dyskusja [SU3] opracowanie tekstowe/praca pisemna

Subject contents

1. Selection and approval of the diploma thesis topic.
2. Defining the purpose, scope and structure of the thesis.
3. Research methodology in the field of tax law, finance and accounting.
4. Literature and case law analysis rules of citation and bibliography preparation.
5. Preparation of the work plan and implementation schedule.
6. Consultations with the supervisor concerning theoretical and empirical parts of the thesis.
7. Presentation of preliminary results and discussion of research assumptions.
8. Editorial and formal rules for preparing the diploma thesis.
9. Final presentation of thesis progress and preparation for the defense.
