

Subject card

Subject name and code	Law and management in maritime enterprises - lecture, PG_00175107						
Field of study	Administration						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Bachelor's studies		Subject group		Optional subject group		
Mode of study	part-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		3.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Law and Administration -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Dominika Wetoszka				
	Teachers		dr Dominika Wetoszka				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	20.0	0.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		0.0		55.0	75
Subject objectives	To acquire a general knowledge of maritime law, to expose the specificity of the regulation of maritime shipping activities, to explain the functioning of maritime law institutions through the prism of international legal solutions.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ADMINL3_WK04] The student knows and understands the current dilemmas regarding the functioning of institutions of substantive and procedural law in the sphere of the state and administration. Additionally, he identifies key phenomena occurring in the market economy and economics, including knowledge and understanding of the basic principles of public finance and the operation of various forms of entrepreneurship.	K_UW02 A student has the ability to analyse legal texts in the field of maritime law; he/she interprets maritime law correctly and understands the meaning of ship documents. K_UW03 The student uses the subject net of concepts, understands the premises and concepts of civil liability in shipping. K_UU12 The student understands the principles of implementation of maritime international conventions into national law, their influence on the legal order of maritime states. He/she also recognizes the importance of public law regulations maritime for shipping.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW3] text preparation/written work
	[ADMINL3_WG03] At an advanced level, the student is able to characterize the system of public authority (national, local, and EU-level), the structure of administration, the process of appointing bodies, their competencies, and the domains in which they operate, as well as the legal and organizational conditions of administrative functioning.	K_WG01 has an in-depth and well-ordered knowledge of the nature of legal sciences, their place in the system of sciences and relations to other sciences K_WG02 is familiar with terminology and terms from the field of law and related disciplines to an extended degree K_WG04 has an advanced knowledge and understanding of methods and tools, including techniques for obtaining data and information, specific to the field of study of administration and related disciplines K_WG05 has a structured knowledge of types of legal relations and of regularities governing them K_WG07 knows methods and tools, including techniques for obtaining data and information, as well as research methods, specific to legal sciences and related disciplines K_WK10 knows and understands the most important dilemmas which civilisational development within legal-administrative sciences and economic sciences brings about.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW3] text preparation/written work
	[ADMINL3_WG01] At an advanced level, the student is able to define the sciences of law, administration, and politics, as well as knows the concepts and terminology appropriate to them.	K_WG02 At the end of the course the student knows and understands the basic problems of maritime law - international regulations concerning issues of carriage of cargo by sea, charter agreements, damage to person and property, salvage, collisions and pollution from ships, and also issues related to nationality of a ship.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW3] text preparation/written work
