Subject objectives	The aim of the course is to highlight the significant role of spatial mobilities in the contemporary world and the sociological potential of travel practices. This includes familiarizing students with major theoretical concepts from sociology and anthropology of travel and tourism. The course also addresses the ethical aspects of travel and modern tourism, along with the practical implications of sociological diagnoses in this field.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[SOCL3_U08] The graduate is able to analyse current social phenomena in the context of knowledge about the mechanisms of human activity, the impact of a group on an individual and the processes of change that Polish society, European society and that of the world undergoes	The student can conduct basic analyses of the impact of tourism practices on local communities.
