Subject objectives	The aim of the lectures is to present globalization processes. Various dimensions of globalization will be discussed: economic, social, cultural and political. Attention will be paid to their mutual influence and interdependence. The ambiguity of the effects of globalization processes, which on the one hand aim at universalization and integration and, on the other hand, cause resistance and opposition to these processes. It is also important to reflect on their impact on Polish society, so the aim will be to learn the scale of threats and risks that Polish society faces in the 21st century.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[SOCMU2_W09] The graduate has in-depth knowledge and understanding of various views on social life, and selected social structures and institutions expressed in the everyday world, public and scientific discourse, knows the directions of their historical evolution and the dynamics and consequences of conflicts on this background	The graduate has an in-depth knowledge and understanding of various perspectives on the causes and effects of specific threats and risks.
