University of Gdańsk

Subject card

Subject name and code	Bachelor's Seminar B, PG_00177186		
Field of study	Philosophy		
Date of commencement of studies	October 2025	Academic year of realisation of subject	2026/2027
Education level	Bachelor's studies	Subject group	Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	2	Language of instruction	Polish
Semester of study	4	ECTS credits	2.0
Learning profile	academic	Assessment form	credit
Conducting unit	Division of Logic, Philosophy of Science and Epistemology -> Institute of Philosophy -> Faculty of Social Sciences -> Rector		
Name and surname of lecturer (lecturers)	Subject supervisor	dr Bartosz Wcisło	
	Teachers	dr Bartosz Wcisło dr Thomas Hodgson	

Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	30	0.0	20.0	50

Subject objectives	Preparation for conducting scientific research in the field of philosophy of science and logic

Learning outcomes

Course outcome	Subject outcome	Method of verification
[FILOZL3_W10] The graduate knows methods of interpretating philosophical texts.	Knows the methods of interpreting a philosophical text in the field of philosophy of science and logic	[SW3] text preparation/written work
[FILOZL3_U08] The graduate detects relationships between the theses of researched written and oral philosophical statements.	Detects relationships between the theses of the examined written and oral philosophical statements in the field of philosophy of science and logic	[SU1] oral statement/conversation/ discussion [SU3] text preparation/written work
[FILOZL3_U04] The graduate knows the methods of interpreting a philosophical text, can read and interpret a philosophical text.	Reads and interprets text in the scope of philosophy of science and logic	[SU2] presentation/project/paper/ report
[FILOZL3_U02] The graduate uses research tools typical to philosophical disciplines.	It uses research tools characteristic of philosophical fields in the field of philosophy of science and logic	[SU3] text preparation/written work
[FILOZL3_W15] The graduate knows the principles of publishing philosophical texts and has basic information about the recipients of philosophical literature.	on the principles of publishing a philosophical text in the field of philosophy of science and logic	[SW3] text preparation/written work
[FILOZL3_W02] He/she is familiar with advanced philosophical terminology in Polish	Knows advanced philosophical terminology in Polish in the scope of philosophy of science and logic	[SW3] text preparation/written work
[FILOZL3_U14] He/she writes simple dissertations with independent selection of literature.	Writes simple essays with independent selection of literature in the field of philosophy of science and logic	[SU3] text preparation/written work
[FILOZL3_U03] The graduate independently acquires knowledge and develops research skills, following the instructions of the research supervisor.	It uses research tools characteristic of philosophical fields in the field of philosophy of science and logic	[SU3] text preparation/written work [SU5] implementation of a problem task
[FILOZL3_W06] The graduate knows the ideas and arguments of selected classical philosophical authors on the basis of independent reading of their writings.	Knows the ideas and arguments of selected classical philosophical authors based on independent reading of their writings in the field of philosophy of science and logic	[SW3] text preparation/written work
[FILOZL3_W03] He/she is familiar with advanced philosophical terminology in a foreign language of choice.	for advanced philosophical terminology in a selected foreign language in the field of philosophy of science and logic	[SW1] oral statement/ conversation/discussion [SW3] text preparation/written work
[FILOZL3_U18] The graduate conducts basic research work under the supervision of a supervisor or a research team leader.	Conducts basic research work under the supervision of a research supervisor or head of a research team in the field of philosophy of science and logic	[SU5] implementation of a problem task
[FILOZL3_U01] The graduate searches for, analyses, evaluates, selects, and uses information from written or electronic sources.	Searches, analyzes, evaluates, selects and uses information from written or electronic sources in the field of history of philosophy	[SU3] text preparation/written work
[FILOZL3_U05] The graduate correctly applies the learned philosophical terminology.	Correctly uses learned philosophical terminology in the philosophy of science and logic	[SU1] oral statement/conversation/ discussion [SU3] text preparation/written work

Subject contents

Methodology of writing a diploma thesis Other content depends on the students' choice of thesis topics

Prerequisites and co-requisites

completed logic course

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
presence and participation in the discussion	80.0%	20.0%
presentation of the progress of the thesis	100.0%	80.0%

Recommended reading

Basic literature

depending on the individual choice of the topic of the diploma theses in the area of philosophy of science and logic, written at the seminar

	Supplementary literature	as above
	eResources addresses	
Example issues/ example questions/ tasks being completed	presentation of the topic of the thesis, purpose, methods and other issues discussed in the thesis, argumentative strategies	
Work placement	Not applicable
