

Subject card

Subject name and code	Seminar I - BIELAWSKA Kamila , PG_00177280						
Field of study	Taxes and Tax Consultancy						
Date of commencement of studies	October 2025		Academic year of realisation of subject			2025/2026	
Education level	Master's studies		Subject group			Optional subject group	
Mode of study	part-time studies		Mode of delivery			at the university	
Year of study	1		Language of instruction			Polish	
Semester of study	2		ECTS credits			5.0	
Learning profile	academic		Assessment form			credit	
Conducting unit	Faculty of Law and Administration -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Kamila Bielawska				
	Teachers		dr Kamila Bielawska				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		110.0	125
Subject objectives	Prepare students to write a master's thesis, among other things, by introducing them to the principles of conducting scientific research, selecting literature sources and research methods, formulating research problems and hypotheses, and structuring a scientific paper.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PiDPMU2_UW01] is able to use the theoretical knowledge in the field of public levies law and accounting and related scientific disciplines in order to formulate and solve complex and unusual problems (e.g. validation and interpretation problems related to the application of public levies law, tax analysis problems or balance sheet problems), in including innovative performance of tasks in unpredictable conditions by: - appropriate selection of sources (including in particular normative acts, doctrinal literature and case law) and information derived from them, assessment, critical analysis, synthesis, creative interpretation and presentation of this information, - selection and use of appropriate methods and tools (including advanced information and communication techniques, as well as methods and tools independently adapted or developed from scratch, e.g. the use of advanced methods of legal interpretation using electronic databases of case law and literature to solve problems related to the application of public levies law)	The student solves the posed research problem using his knowledge, selection of appropriate sources and research methods appropriate to finance and financial law.	[SU3] text preparation/written work
	[PiDPMU2_UW02] is able to formulate and test hypotheses related to simple research problems regarding the application of public levies law, tax analysis or accounting	The student formulates research hypotheses concerning thesis being prepared, in particular in the field of finance, taxation and insurance.	[SU3] text preparation/written work
	[PiDPMU2_WK06] knows and understands the concepts and principles of industrial property protection and copyright	The student understands the principles of using information from available sources with respect for copyright	[SW3] text preparation/written work
	[PiDPMU2_UK03] is able to communicate on specialized legal, financial, balance sheet and tax topics with diverse audiences, as well as conduct a debate on the problems of applying the law of public levies, finance and accounting	The student can present own views in an understandable manner, asks questions and engages in discussions regarding the issues of the master's thesis being prepared	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[PiDPMU2_KK01] understands the complexity of problems occurring in the field of public levies law, finance and accounting and related disciplines and is therefore ready to critically evaluate the knowledge acquired in this area and the received content, understands the importance of knowledge in solving cognitive and practical problems and - in the event of difficulties with solving them independently problem - seeking the opinion of experts dealing with public levies law, finance, accounting and related disciplines (especially scientists, experienced tax advisors, accountants, lawyers dealing with disciplines other than tax and accounting law), and, if necessary, also expert specialists in disciplines other than legal and economic sciences	The student is ready to solve complex problems in the area of the thesis to be prepared, in particular in the areas of finance, taxation and insurance, knows his own limitations and understands the need to use the opinions of experts in the field.	[SK3] text preparation/written work

Subject contents	Basic ethics of research work The process of solving scientific problems, research methods that are universal and specific to the science of finance and legal sciences, literature sources and how to use them, databases and the principles of their exploration, the structure of a scientific paper Support of individual students in: choosing the topic of the thesis, setting the research problem and defining the objectives and research hypotheses documented by appropriately selected literature. Presentation by students of their individual thesis concept.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Present in written and oral form a complete concept of the master's thesis	51.0%	100.0%
