Subject objectives	The aim of the course is to familiarize students with the most important events in the history of musical theatre from the 19th century to the present day. The student will acquire systematic knowledge about the development of key movements and theoretical concepts regarding the function and role of music in musical performances. They will become acquainted with basic terms and research methods in theatre studies, musicology, performance studies, and literary studies, with particular focus on the correspondence of the arts, encompassing the relationship between music and theatre. The student will develop the ability to identify the characteristic features of musical theatre productions and to relate them to the socio-cultural contexts of different historical periods.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[WOTL3_K01] Understands the need to constantly deepen and update professional qualifications in the field of theater knowledge, especially active monitoring of current theater life in the country and abroad and reading the latest publications devoted to theater.	The student knows where to obtain information useful for deepening their knowledge of musical theatre.	[SK1] oral statement/conversation/discussion [SK4] test/exam - oral or written [SK5] implementation of a problem task [SK8] observation of student's independent or team work
	[WOTL3_U03] Is able to recognize various forms of performing arts and select appropriate methods and tools for their analysis and interpretation.	The student is able to identify staging conventions and accurately place them within the artistic currents of musical theatre.	[SU1] oral statement/conversation/discussion [SU5] implementation of a problem task [SU8] observation of student's independent or team work
