

Subject card

Subject name and code	Seminar III - BIELAWSKA Kamila, PG_00144011						
Field of study	Taxes and Tax Consultancy						
Date of commencement of studies	October 2024		Academic year of realisation of subject		2026/2027		
Education level	Bachelor's studies		Subject group		Optional subject group		
Mode of study	part-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		8.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Law and Administration -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Kamila Bielawska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	16.0	16
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	16		0.0		184.0	200
Subject objectives	The main purpose of the seminar is to support the student in the preparation of a written paper of aof a scientific nature that is the basis for the oral presentation at the exam.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PiDPL3_W02] He/she knows the basic terminology and basic concepts in the field of tax law and finance, has elementary knowledge of substantive and formal tax law.	The student knows the basic terminology of taxation, finance and insurance	[SW3] text preparation/written work
	[PiDPL3_U02] He/she is able to use theoretical knowledge in the field of tax law, accounting and related disciplines through the proper selection of sources (including in particular normative acts, doctrinal literature and jurisprudence) and information derived from them, he/she is able to carry out assessment, critical analysis and synthesis of this information, using appropriate methods and tools (including advanced information and communication techniques) - which enables performing tasks that are not fully predictable, in particular solving validation and interpretation problems related to the application of tax law, as well as problems of tax analysis and accounting	The student is able to use his/her knowledge in the field of taxation and insurance together with an appropriate selection of sources and research methods to solve a selected research problem	[SU3] text preparation/written work
	[PiDPL3_K01] The graduate understands the complexity of problems occurring in the field of tax law, finance and accounting and related disciplines, and therefore is ready to assess the problems critically. He/she understands the importance of knowledge in solving cognitive and practical problems and - in case of difficulties with solving the problem independently - consulting experts in tax law, finance, accounting and related disciplines (especially scientists, expert tax advisors, lawyers dealing with disciplines other than tax law and balance sheet), and, if necessary, also expert specialists in disciplines other than legal and economic sciences	The student understands the complexity of research problems in the legal and economic aspects of taxation and insurance, and therefore is ready to critically evaluate the knowledge he has in this area, and when the need for awareness to consult experts	[SK3] text preparation/written work
	[PiDPL3_U07] He/she can plan and implement independently the need for lifelong learning	Student is able to independently plan and implement the need for lifelong learning	[SU3] text preparation/written work
	[PiDPL3_U01] The graduate can use theoretical knowledge in the field of tax law, accounting and the related disciplines in order to formulate and solve complex problems that may occur in this area, especially complex validation and interpretation problems in the field of tax law, tax analysis and accounting	Students are able to use theoretical knowledge of taxation and insurance to formulate and solving problems occurring in their area, including including those requiring legal and financial analysis	[SU3] text preparation/written work
	[PiDPL3_U04] He/she can take part in a debate on the problems of applying tax law, finance and accounting - present and evaluate various opinions and positions, in particular with regard to different interpretations of the provisions of the law of public tributes and discuss them	Students are able to take part in the debate on the problems of the application of tax and insurance law present and evaluate different opinions and positions, especially on different interpretations of the law of public tributes, and discuss them	[SU3] text preparation/written work
	[PiDPL3_U03] The graduate can communicate using specialized legal, financial and tax terminology	Students are able to communicate using specialized tax and insurance terminology	[SU3] text preparation/written work
	[PiDPL3_W06] He/she knows and understands the basic concepts and principles of industrial property protection and copyright	Student knows and understands the basic concepts and principles of industrial property protection and copyright law	[SW3] text preparation/written work

Subject contents	The topics of the classes are adapted to the research issues selected by the students - participants of the seminar - at the stage of developing a detailed concept of the thesis, and covers the broadly understood subject of taxes and insurance, along with the practical aspects of conducting scientific research.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Submission of the final version of the thesis	51.0%	100.0%
