

Subject card

Subject name and code	Project Management, PG_00177664						
Field of study	Finance and Accounting						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		4.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Department of Corporate Finance -> Faculty of Management -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Maciej Goniszewski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	30.0	0.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		3.0		52.0	100
Subject objectives	The aim of the course is to provide knowledge in the field of broadly understood project management and to build students' skills in the area of project initiation, planning, and implementation. After learning project planning techniques, students proceed to tasks related to initiating and planning individual projects. The topics are supplemented with practical case studies focused on issues addressed in a given topic. During the course, students develop practical skills related to project preparation using Microsoft Project.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FiRMU2_U02] The student is able to propose or design suitable solutions, including innovative ones, to complex problems in finance and accounting.	The student correctly selects and applies project management techniques and tools.	[SU4] test/exam - oral or written
	[FiRMU2_K01] The student is prepared to acquire and enhance their knowledge necessary to address both cognitive and practical problems, particularly in the fields of management, quality sciences, economics, and finance. They are also equipped to critically evaluate the information received and seek guidance from experts in finance and accounting when facing challenges in problem-solving independently.	The student recognizes situations requiring the implementation of specific solutions in the project. The student independently deepens their knowledge of the project and project management.	[SK2] presentation/project/paper/report
	[FiRMU2_U10] The student can communicate information, present their opinions and debate with diverse audiences, using terminology from finance and accounting through various media.	The student analyzes and clearly communicates information about the project to other stakeholders.	[SU2] presentation/project/paper/report
	[FiRMU2_W07] The student possesses a comprehensive understanding of regulations and legal, organizational, and ethical norms, including the protection of intellectual property relevant to finance and accounting.	The student understands the specifics and complexity of project management in an organisation and the relationship between a project and legal standards. The student understands the links between a project and project management and the legal area in an organisation.	[SW4] test/exam - oral or written
	[FiRMU2_W06] The student possesses a comprehensive understanding of the objectives, essence, nature, and interrelationships of financial processes. They are knowledgeable about how these processes are recorded and the principles of rational decision-making, particularly in terms of strategic decisions and the implementation of changes in this area.	The student has comprehensive knowledge of project design and management. The student understands the essence and types of projects, the project life cycle, and project management techniques and tools.	[SW4] test/exam - oral or written
	[FiRMU2_U11] The student can collaborate effectively in teams and assume leadership roles.	The student cooperates in teams, plans team work and carries it out correctly.	[SU8] observation of student's independent or team work
Subject contents	1. Introduction to project management project life cycle. 2. Defining project objectives and scope. Project charter. 3. Project stakeholders. 4. Project risks. 5. Work breakdown structure (WBS). 6. Project responsibility matrix (RAM). 7. Selected techniques in project planning: Gantt chart. Histogram. Cost chart, critical path method. 8. Using Microsoft Project in project planning - computer lab: managing tasks, resources, and costs in a project.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	project presentation	51.0%	30.0%
	written test	51.0%	70.0%
