	Number of study hours	60		4.0		61.0	125
Subject objectives	The course focuses on the real challenges and problems of entrepreneurship (including startups) in the (pre) start -up phase of creating new companies and their development . The overall goal is to improve students ' ability to define entrepreneurship problems , diagnose them , and recommend solutions . The course provides theoretical explanations and practical case studies on how entrepreneurs deal with development challenges . This will improve students' competence in assessing entrepreneurial opportunities and initiatives , as well as increase their readiness to start and develop new businesses independently .
