	[FiRL3_W05] To an advanced degree, the student knows and understands the tools and techniques for obtaining, compiling, and analyzing the data necessary to assess the financial situation of various entities in management, quality sciences, economics, and finance.	The student is familiar with the applications, advantages, and limitations of economic analysis methods—such as preliminary and ratio analysis, comparative analysis, and descriptive analysis—for evaluating the financial situation of various enterprises.	[SW1] oral statement/conversation/discussion [SW3] text preparation/written work
	[FiRL3_U10] The student can convey information clearly and effectively, presenting their opinions using finance and accounting terminology across various media.	The student is able to define and interpret basic concepts in finance and accounting related to the selected thesis topic.	[SU1] oral statement/conversation/discussion
Subject contents	[FiRL3_K01] The student is prepared to acquire the knowledge necessary to tackle cognitive and practical problems, particularly in finance and accounting. Additionally, the students are ready to assess their current knowledge and the information they receive critically and consult with experts if they have difficulties solving the problem independently.		
	The bachelor seminar covers a broad range of topics related to the analysis of the financial condition of enterprises and the factors influencing their financial situation. The thematic scope includes both large companies and entities from the small and medium-sized enterprise (SME) sector. Students participating in the seminar will have the opportunity to write bachelors theses on issues such as financial analysis, assessment of business performance, the use of controlling tools, and ESG reporting. The seminar allows for the development of both analytical and research-oriented theses such as financial data analysis, international comparisons, or evaluations of the effectiveness of financial management strategies in various types of organizations. Particular emphasis is placed on the practical aspects of enterprise operations in a changing economic environment.
