Subject objectives	The aim of the course is to introduce students to the basics of commercial companies as the most popular collective form of doing business, as well as to provide understanding of corporate governance regulations in international context.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[FiRL3_W08] The student has advanced knowledge and understanding of the interrelationship of accounting and finance with business in a changing environment and the accompanying contemporary challenges and dilemmas in this context.		The student identifies legal and financial consequences of corporate governance decisions, including those related to compliance, reporting, and shareholder rights.		[SW4] test/exam - oral or written		
	[FiRL3_U05] From the perspective of finance and accounting, the student can apply legal, professional, and ethical standards in the context of management, quality sciences, economics and finance.		The student effectively combines legal, financial, and managerial perspectives to ensure compliance and integrity in corporate governance structures.		[SU2] presentation/project/paper/report [SU4] test/exam - oral or written		
	[FiRL3_W09] The student with an advanced degree knows and understands the general principles of creating and developing various forms of entrepreneurship using knowledge from management, quality sciences, economics and finance.		The student characterizes how corporate governance structures support or hinder the growth and development of different entrepreneurial forms in dynamic markets.		[SW4] test/exam - oral or written
