	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	24		1.0		75.0	100
Subject objectives	To familiarize students with the psychological mechanisms that shape the behavior of individuals and groups in the workplace.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZMU2_W04] The student possesses a deep understanding of human behavior, including individual, group, and organizational dynamics within an organization.	The student recognizes organizational factors shaping behavior within and between groups and analyzes their impact on human functioning in a team and organization.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[ZARZMU2_W01] The student has an in-depth knowledge and understanding of the theories in management, quality sciences, economics, and finance and their role within the social sciences. This knowledge is particularly relevant for making informed business decisions.	The student explains the conditions under which theories describing the behavior of individuals and groups in the workplace can be applied.	[SW4] test/exam - oral or written
	[ZARZMU2_U10] The student can communicate information, express opinions, and engage in debates with diverse audiences using management and quality science terminology across various media.	The student effectively communicates with others, presents and argues their opinions on the topic using terminology from the field of organizational behavior management, using various means of communication.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[ZARZMU2_U02] The student can identify complex issues related to the organization's operations, the processes within it, and its relationships with a changing environment, proposing appropriate and innovative solutions.	The student identifies problems related to behavior and formulates appropriate directions for systemic change in the area of group and intergroup relations.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
