Subject objectives	Preparation of the master's thesis in accordance with ethical requirements and the principles of writing academic theses according to specified guidelines and regulations.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FiRMU2_W05] The student possesses a comprehensive understanding of advanced and innovative methods, tools, and techniques for obtaining, utilizing, and analyzing data needed to assess the financial situation of various entities in management, quality sciences, economics, and finance.	The student discovers and selects advanced methods, tools, and techniques for acquiring and analyzing data to assess situations in the fields of economics and finance, including market participants and the financial instruments they manage.	[SW3] text preparation/written work
	[FiRMU2_U07] Students can create detailed written papers, including reviews, analyses, or research papers, along with presentations and oral speeches on finance and accounting topics.	The student prepares a plan for in-depth written studies, including the content of chapters of the master's thesis, in the field of finance and accounting	[SU3] text preparation/written work
	[FiRMU2_U02] The student is able to propose or design suitable solutions, including innovative ones, to complex problems in finance and accounting.	The student plans solutions to complex problems in the fields of finance and accounting.	[SU3] text preparation/written work
	[FiRMU2_U13] The student can formulate and verify hypotheses related to simple research problems, utilizing structured knowledge in management, quality sciences, economics, and finance, along with appropriately selected research methods.	The student verifies hypotheses related to research problems and draws conclusions using knowledge and research methods applied in economics and finance.	[SU3] text preparation/written work
	[FiRMU2_K01] The student is prepared to acquire and enhance their knowledge necessary to address both cognitive and practical problems, particularly in the fields of management, quality sciences, economics, and finance. They are also equipped to critically evaluate the information received and seek guidance from experts in finance and accounting when facing challenges in problem-solving independently.	The student deepens and gathers knowledge, information, and data to solve cognitive and practical problems in the fields of finance and economics.	[SK3] text preparation/written work
	[FiRMU2_U03] Students can gather data from carefully chosen sources to verify its accuracy. They can then use and present both financial and non-financial information to analyze and evaluate economic processes and phenomena in management and quality sciences, as well as in economics and finance.	The student solves and justifies complex problems in the fields of finance and accounting.	[SU3] text preparation/written work
Subject contents	1. Discussing progress in writing the masters thesis and challenges in its preparation 2. Discussion of the thesis topic and its treatment within the chapters 3. Discussing methodological issues, relationships, and connections between the theoretical approach and empirical research 4. Specifics of text analysis and drawing conclusions 5. Improving the ability to use advanced methods, tools, and techniques for acquiring knowledge, information, and data, as well as reasoning skills 6. Preparation of one chapter and one paragraph of another chapter		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Written work which consists of: preparation of one chapter and one paragraph of another chapter.	51.0%	100.0%
