

Subject card

Subject name and code	Environmental Impact Assessments - lecture, PG_00187036						
Field of study	Water Management and Protection of Water Resources						
Date of commencement of studies	October 2026		Academic year of realisation of subject			2028/2029	
Education level	Bachelor's studies		Subject group			Obligatory subject group in the field of study Subject group related to practical vocational preparation	
Mode of study	full-time studies		Mode of delivery			at the university	
Year of study	3		Language of instruction			Polish	
Semester of study	6		ECTS credits			1.0	
Learning profile	practical		Assessment form			credit	
Conducting unit	Laboratory of Biodiversity and Benthic Functioning -> Department of Marine Ecology -> Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Urszula Janas				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	The purpose of the course is to develop knowledge of the assessment of threats to aquatic ecosystems associated with current and future investments and the search for solutions aimed at sustainable management in aquatic areas, to familiarize the student with the methods of impact assessments and the course of the EIA procedure. During the course, the student will gain knowledge of the need to consider the impact of the investment at the stage of its planning,						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GWOZW3-W05] The student has advanced knowledge and understanding of assumptions of the ecosystem approach to management of the environment and human activities in the environment as well as the development directions in the field of applied solutions and scientific research for the protection and restoration of water resources in selected divisions of the national economy.	He or she knows and understands the assumptions of the ecosystem approach to the management of the environment and the directions of development in applied solutions for the protection and restoration of water resources	[SW4] test/exam - oral or written
	[GWOZW3-W03] The student has an advanced knowledge and understanding of the organisation and legal framework of environmental protection, nature conservation and water management, as well as the principles governing the organisation and operation of hydrological and meteorological services and the fundamentals of Integrated Environmental Monitoring.	He or she knows and understands the organization and legal basis of environmental protection and nature conservation necessary in assessing the impact of projects on the water environment	[SW4] test/exam - oral or written
Subject contents	National and European legal conditions in environmental impact assessment; Methods used in environmental impact assessment. Components of the environment assessed in the course of the proceedings and the criteria for this assessment; The role of the investor, administrative bodies, non-governmental organizations and the public in the environmental impact assessment procedure; The course of administrative proceedings on environmental impact assessment for planned projects: always and potentially significantly affecting the environment, that may affect Natura 2000 areas, as well as for plans and programs. Issues of climate change and biodiversity, and Life Cycle Assessment (LCA) and Nature Based Solutions in environmental impact assessments.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Written credit with open and test questions	51.0%	100.0%
Recommended reading	Basic literature	Engel J., 2009, Natura 2000 w ocenach oddziaływania przedsięwzięć na środowisko, Ministerstwo Środowiska, Warszawa, 78 str. Ustawa z dnia 3 października 2008 r. o udostępnianiu informacji o środowisku i jego ochronie, udziale społeczeństwa w ochronie środowiska oraz o ocenach oddziaływana na środowisko (ustawa OOS) z późniejszymi zmianami Rozporządzenie Rady Ministrów z dnia 10 września 2019 r. w sprawie przedsięwzięć mogących znacząco oddziaływać na środowisko
