	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		10.0	25
Subject objectives	The main objective of the course is for students to understand the most important heterodox theoretical schools in contemporary economics. Students learn about current debates taking place among different schools of thought in economics. Student learn that economics, like sociology, is a multi-paradigmatic science. Students become acquainted with representatives of heterodox economics (including Polish economists). Students gain knowledge about alternative theories of monetary policy as opposed to monetarism.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[SOCL3_K05] The graduate is ready to think and act in an entrepreneurial manner	Students are prepared to think beyond the common understanding of economic processes.	[SK1] oral statement/conversation/discussion
	[SOCL3_U03] The graduate is able to analyse the causes and course of social processes and phenomena	Students are able to analyze the course of selected economic processes (e.g., the gender division of labor, the process of exploitation, the causes of the 2008 financial crisis).
