	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		20.0	50
Subject objectives	The student learns about sociological notions of social differences. They are aware of and capable of distinguishing between stratification and class approaches. They understand what social strata are and how they have been defined. They can identify various dimensions of social differentiation. They can apply theoretical approaches to the reality around them. The student is able to critically reflect on simplified approaches to social differentiation (reducing social divisions to two or three large groups).						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[SOCL3_U12] The graduate is ready to lifelong learning	The student is prepared to acquire new knowledge about social changes related to inequalities.	[SK8] observation of student's independent or team work
	[SOCL3_U03] The graduate is able to analyse the causes and course of social processes and phenomena	The student is able to analyse the causes of social inequalities and the course of their changes over time.	[SU8] observation of student's independent or team work
	[SOCL3_U01] The graduate is able to interpret social phenomena using sociological concepts and sociological imagination	The student is able to interpret class, stratification, gender and ethnic differences.	[SU8] observation of student's independent or team work
	[SOCL3_W03] The graduate knows and understands in an advanced way the relationships between the relationship between micro and macro social structures and institutions, on a national and international scale in the fields of private life, work, politics, civil society, etc	The student knows and understands in an advanced way the relationships between social strata, social classes, genders, age cohorts and ethnic groups. The student can apply this knowledge to the state, international relations, private life and civil society.	[SW2] presentation/project/paper/report
	[SOCL3_W08] The graduate knows and understands in an advanced way the character and directions of the most significant changes in the scope of social structures and institutions and their elements, he/she has knowledge about the causes, course and consequences of these changes on a micro- and macro-social scale and on a global scale	The student has advanced knowledge and understanding about the nature and trends of changes in the structures of social inequalities in contemporary developed societies.	[SW2] presentation/project/paper/report
	[SOCL3_W07] The graduate has an advanced knowledge about the ethical and moral norms of social life as well as legal and organisational norms regulating social life, is familiar with the processes of their introduction and changes	The student has advanced knowledge of the normative justifications for inequalities and the moral justifications for their reduction (meritocratic norms vs. egalitarian norms).	[SW2] presentation/project/paper/report
	[SOCL3_W09] The graduate knows and understands various views on social life and selected social structures and institutions expressed in the everyday world, public and scientific discourse, and is familiar with their historical evolution	The student knows and understands different views on social divisions and inequalities and is familiar with their historical evolution.	[SW2] presentation/project/paper/report
