Example issues/ example questions/ tasks being completed	Demographic and economic changes after World War II have challenged the primacy of labor and capital as a substrate of conflict on new axes of conflict. List at least two platforms on which the new conflicts are based.....What is the name of the problem formulated by Olson in 1963 about the irrationality of collective action: social movements create goods that are shared by all, while the costs of the operations are borne by the individual individuals participating in the movement (e.g., everyone benefits from reducing exhaust fumes, etc.), so there is nothing rational about engaging in the creation of collective goods?.....
