	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		10.0	25
Subject objectives	The aim of the course is to familiarize students with the basics of knowledge in the field of interdisciplinary science, which is social gerontology due to the dynamically progressing process of population aging. Getting to know the curriculum content is to make it easier for students to understand issues related to the functioning of the elderly community itself, as well as issues related to this community in a broader context.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[SOCL3_U06] The graduate is able to use the acquired sociological knowledge to resolve dilemmas arising in professional work	[SOCL3_U06] He/she is able to use the acquired sociological knowledge relating to people in the so-called third age to solve dilemmas that arise in professional work, in which we are increasingly dealing with the elderly.	[SU4] test/exam - oral or written
	[SOCL3_U01] The graduate is able to interpret social phenomena using sociological concepts and sociological imagination	[SOCL3_U01] Can interpret social phenomena that occur in the oldest generations using concepts from the field of general sociology, sociology of old age and sociological imagination.	[SU4] test/exam - oral or written
	[SOCL3_W08] The graduate knows and understands in an advanced way the character and directions of the most significant changes in the scope of social structures and institutions and their elements, he/she has knowledge about the causes, course and consequences of these changes on a micro- and macro-social scale and on a global scale	[SOCL3_W08] Knows and understands at an advanced level the nature and directions of the most important changes in the field of social structures and institutions and their elements, which currently result from the very intensive aging process of modern societies. He/she has knowledge of the causes, course and consequences of these changes on a micro and macro-social scale and on a global scale in this type of societies.	[SW4] test/exam - oral or written
	[SOCL3_W04] The graduate knows and understands in an advanced way the types of informal and formal social bonds that arise in different types of groups, social networks and societies, and with the regularities governing their change.	[SOCL3_W04] Knows and understands in an advanced way the types of informal and formalized social bonds arising in various types of groups, social networks and societies, especially in those that are often largely co-created by older people (taking into account intergenerational relations), as well as the regularities governing their change.	[SW4] test/exam - oral or written
	[SOCL3_W05] The graduate has advanced knowledge of man as a subject constituting social structures and the rules of their functioning, as well as acting in these structures and participating in cultural practices in the local, regional environment, the area of national culture and global exchange	[SOCL3_W05] Thanks to the study of gerontology, he/she has advanced knowledge about the elderly person as an entity constituting social structures, the principles of their functioning, as well as acting in these structures and participating in cultural practices in the local, regional, national culture and global exchange area.	[SW4] test/exam - oral or written
Subject contents	1. A detailed discussion of the content of the syllabus. 2. Demographic situation in Poland and in selected countries of the world. Gerontology - geriatrics - social gerontology - sociology of old age - semantic relations. Polish Society of Gerontology. Pomeranian Voivodeship Council of Seniors. 3. Research on the elderly methodological issues. 4. Ageing as an individualised and multifaceted process: selected definitions of age and theories of ageing. Patterns (courses) of aging and old age: successful, usual and impaired aging. 5. Changes relating to the place and role of the elderly in the family and society. (including intergenerational relations, peer contacts, subculture of the elderly, Universities of the Third Age). 6. Family help. 7. Non-family help. Social assistance and the elderly.
