Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FiRL3_W03] The student knows and understands, to an advanced degree - from the perspective of finance and accounting - the internal and external relations of institutions and organizations with particular emphasis on financial security systems.	The student understands the mechanisms of the financial market and the role of its institutions, and is able to recognize and classify the basic financial instruments used in controlling	[SW2] presentation/project/paper/report
	[FiRL3_U06] The student can use and integrate knowledge from management and quality sciences, as well as economics and finance, to resolve dilemmas and solve complex problems that arise in professional work in finance and accounting.	The student is able to use knowledge of management, finance, accounting and economics in order to analyse and solve decision-making problems typical of controlling in enterprises.	[SU4] test/exam - oral or written
	[FiRL3_W08] The student has advanced knowledge and understanding of the interrelationship of accounting and finance with business in a changing environment and the accompanying contemporary challenges and dilemmas in this context.	The student has knowledge of the relationship between accounting, finance and running a business, taking into account the impact of a dynamically changing environment.	[SW2] presentation/project/paper/report
	[FiRL3_U04] The student is able—from the perspective of finance and accounting—to correctly select and properly apply methods and tools from the fields of management and quality sciences, economics, and finance to analyse and forecast economic processes and evaluate economic phenomena.	The student specifies, estimates and verifies econometric models describing phenomena related to the financial market and corporate finance, makes forecasts based on them and assesses the correctness of the forecasts obtained.	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written [SU5] implementation of a problem task
[FiRL3_W09] The student with an advanced degree knows and understands the general principles of creating and developing various forms of entrepreneurship using knowledge from management, quality sciences, economics and finance.	The student is able to use knowledge of management, finance, accounting and economics in order to analyze and solve decision-making problems typical of controlling in enterprises.	[SW2] presentation/project/paper/report
