Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FiRMU2_K01] The student is prepared to acquire and enhance their knowledge necessary to address both cognitive and practical problems, particularly in the fields of management, quality sciences, economics, and finance. They are also equipped to critically evaluate the information received and seek guidance from experts in finance and accounting when facing challenges in problem-solving independently.	The student discovers, verifies, and applies knowledge, information, and data in practice to solve cognitive and practical problems in the field of finance and economics.	[SK3] text preparation/written work
	[FiRMU2_W06] The student possesses a comprehensive understanding of the objectives, essence, nature, and interrelationships of financial processes. They are knowledgeable about how these processes are recorded and the principles of rational decision-making, particularly in terms of strategic decisions and the implementation of changes in this area.	The student defines and describes the essence, nature, and interrelationships of financial processes as well as rational decision-making.	[SW3] text preparation/written work
	[FiRMU2_U01] Students can analyze and interpret complex social and economic processes and phenomena from a finance and accounting perspective, utilizing structured knowledge and tools from management, quality sciences, economics, and finance.	The student analyzes and evaluates complex socio-economic processes and phenomena from the perspective of finance and economics.	[SU3] text preparation/written work
	[FiRMU2_U02] The student is able to propose or design suitable solutions, including innovative ones, to complex problems in finance and accounting.	The student plans solutions to complex problems in the fields of finance and accounting.	[SU3] text preparation/written work
	[FiRMU2_U07] Students can create detailed written papers, including reviews, analyses, or research papers, along with presentations and oral speeches on finance and accounting topics.	The student prepares a plan for in-depth written studies, including a master's thesis plan, in the field of finance and accounting.	[SU3] text preparation/written work
