Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FiRMU2_W01] The student possesses a thorough understanding of the development of theories in management, quality sciences, economics, and finance. They are well-versed in the nature and trends of these fields and recognize their significance within the broader context of social sciences, particularly in relation to finance and accounting.	The student classifies the relationships between entities by adjusting which method of consolidation will be the most appropriate in accordance with the applicable principles of financial reporting.	[SW4] test/exam - oral or written [SW5] implementation of a problem task
	[FiRMU2_U02] The student is able to propose or design suitable solutions, including innovative ones, to complex problems in finance and accounting.	The student analyzes the accounting effects of individual business transactions and calculates and demonstrates their effects on the financial picture of the analyzed entity.	[SU4] test/exam - oral or written [SU5] implementation of a problem task
	[FiRMU2_U01] Students can analyze and interpret complex social and economic processes and phenomena from a finance and accounting perspective, utilizing structured knowledge and tools from management, quality sciences, economics, and finance.	The student interprets the image of the entity presented in the consolidated financial statements and analyzes the effects of the transaction on the image presented in the financial statements.	[SU4] test/exam - oral or written [SU5] implementation of a problem task
[FiRMU2_W08] The student possesses a comprehensive understanding of the intricate relationship between accounting and finance within a dynamically changing business environment, as well as the contemporary challenges and dilemmas that arise in this context.	The student classifies business transactions in terms of applicable regulations, correctly reporting their effects in the consolidated statements.	[SW4] test/exam - oral or written [SW5] implementation of a problem task	
Subject contents	<p>1. Annual consolidated financial statements of the capital group</p> <p>1.1 Entities required to prepare annual consolidated financial statements.</p> <p>1.2 Elements of annual consolidated financial statements.</p> <p>1.3 Conditions for exemption from preparing a consolidated report.</p> <p>1.4 Consolidation methods.</p> <p>1.5 The full method, including the obligations of group members with respect to the timing of separate annual financial statements and the application of equal asset and liability valuation principles therein; elimination of intragroup turnover and unrealized results; dividend recognition; determination, accounting and recording of goodwill and negative goodwill/bargain purchase gain; revaluation reserve; minority interests/non-controlling interests.</p> <p>1.6 The equity method, including the scope of application; valuation of shares at the date of commencement of significant influence; valuation of shares at the end of the fiscal year and in subsequent reporting periods; rules for determining and accounting for goodwill and negative goodwill/gain on bargain purchase; exclusions.</p> <p>1.7 Goodwill impairment test.</p>		
Prerequisites and co-requisites	The student has knowledge of financial accounting and is able to present the impact of business transactions on the financial situation of the entity. Understands the role of financial reporting and is able to draw conclusions about an entity based on its balance sheet and profit and loss account. The student has knowledge of national and international regulations in the field of balance sheet law.
