

**Subject card**

<b>Subject name and code</b>	Sustainability Accounting and Reporting, PG_00177698						
<b>Field of study</b>	Finance and Accounting						
<b>Date of commencement of studies</b>	October 2026	<b>Academic year of realisation of subject</b>			2027/2028		
<b>Education level</b>	Master's studies	<b>Subject group</b>			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	2	<b>Language of instruction</b>			Polish		
<b>Semester of study</b>	3	<b>ECTS credits</b>			5.0		
<b>Learning profile</b>	academic	<b>Assessment form</b>			credit		
<b>Conducting unit</b>	Department of Accounting -> Faculty of Management -> Rector						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr Beata Zackiewicz-Brunke				
	<b>Teachers</b>						
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	30.0	30.0	0.0	0.0	0.0	60
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	60		4.0		61.0	125
<b>Subject objectives</b>	<p>1.</p> <p>Familiarize students with issues related to:</p> <ul style="list-style-type: none"> <li>- to identify sustainable goals feasible for companies,</li> <li>- Opportunities to use accounting tools to measure companies' commitment to sustainability,</li> <li>- Reporting on the implementation of sustainability goals by companies.</li> </ul>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FiRMU2_W04] The student possesses a comprehensive understanding of the complex role and place of humans within financial structures, as well as their behavior in organizations at individual, group, and institutional levels.	The student identifies stakeholders in sustainability reporting. It explains their role in making disclosures from this area with the appropriate quality.	[SW3] text preparation/written work
	[FiRMU2_W01] The student possesses a thorough understanding of the development of theories in management, quality sciences, economics, and finance. They are well-versed in the nature and trends of these fields and recognize their significance within the broader context of social sciences, particularly in relation to finance and accounting.	The student defines the sustainable development of the company. Identifies sustainable development goals and assigns the company's activities to their implementation. It explains the usefulness of accounting for measuring a company's commitment to sustainability.	[SW3] text preparation/written work
	[FiRMU2_U02] The student is able to propose or design suitable solutions, including innovative ones, to complex problems in finance and accounting.	The student presents the use of cost accounting to include environmental costs in the production costs of products	[SU3] text preparation/written work
	[FiRMU2_U04] From a finance and accounting perspective, students are able to select and effectively use, adapt, or develop new methods and tools from the fields of management, quality sciences, and economics. They can analyze and forecast economic processes as well as evaluate economic phenomena.	The student uses accounting tools to generate information about the environmental and social impact of the company on the environment. The student explains the role of legal regulations to measure and present in external reporting the involvement of enterprises in sustainable development.	[SU3] text preparation/written work
	[FiRMU2_W08] The student possesses a comprehensive understanding of the intricate relationship between accounting and finance within a dynamically changing business environment, as well as the contemporary challenges and dilemmas that arise in this context.	The student identifies the scope of disclosures on sustainability in business practice and presents the pros and cons of sustainability reporting. It shows the role of legal regulations to measure and present in external reporting the involvement of enterprises in sustainable development.	[SW3] text preparation/written work
	[FiRMU2_U03] Students can gather data from carefully chosen sources to verify its accuracy. They can then use and present both financial and non-financial information to analyze and evaluate economic processes and phenomena in management and quality sciences, as well as in economics and finance.	The student uses content analysis to identify the scope of sustainability reporting. It outlines the links between corporate activities and the Sustainable Development Goals. It explains the role of legal provisions to measure and present companies' commitment to sustainable development in external reporting.	[SU3] text preparation/written work

Subject contents	<p>1.</p> <p>1.1 The concept of sustainable development and the activities of enterprises.</p> <p>1.2 Sustainable development goals and opportunities for their implementation by enterprises.</p> <p>1.3 Accounting as a system for measuring corporate commitment to sustainable development.</p> <p>1.4 Accounting tools to measure the achievement of sustainable development goals, such as:</p> <ul style="list-style-type: none"> <li>- Cost accounting as a system for measuring and recording environmental costs,</li> <li>- activity-based costing,</li> <li>- Cost budgeting, taking into account environmental costs,</li> <li>- A balanced scorecard focused on measuring sustainability goals.</li> </ul> <p>1.5 Sustainability reporting - new corporate reporting obligations and ESRS (European Sustainability Reporting Standards) guidelines, including:</p> <ul style="list-style-type: none"> <li>- Formal and legal regulations (including the new CSRD),</li> <li>- The process of examining dual materiality and identifying significant sustainability issues,</li> <li>- ESRS 1 and ESRS 2 cross-cutting standards requirements,</li> <li>- Thematic standards (environmental, social and management),</li> <li>- The current practice of sustainability reporting (advantages and disadvantages).</li> </ul>								
Prerequisites and co-requisites	Knowledge of accounting principles, financial reporting and the ability to analyze data contained in financial statements.								
Assessment methods and criteria	<table border="1" data-bbox="448 1361 1490 1489"> <thead> <tr> <th data-bbox="448 1361 794 1406">Subject passing criteria</th> <th data-bbox="794 1361 1141 1406">Passing threshold</th> <th data-bbox="1141 1361 1490 1406">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="448 1406 794 1489">Written credit.
