

Subject card

Subject name and code	Bachelor Seminar 2, PG_00155923						
Field of study	Management of Healthcare Institutions						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2028/2029		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to practical vocational preparation		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			6.0		
Learning profile	practical	Assessment form			credit		
Conducting unit	Department of Organisation and Management -> Faculty of Management -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Jarosław Waśniewski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		120.0	150
Subject objectives	<p>The aim of the course is to prepare students to write a bachelor's thesis, in particular to develop the thesis's assumptions, objectives, and research problems, allowing for the submission of two parts of the thesis:</p> <ol style="list-style-type: none"> 1. Preparation for defining the thesis' assumptions, its purpose, subject, subject, and research problem 2. Supervising the collection and critical analysis of the literature and other sources relevant to the thesis topic 3. Preparation for writing the second part of the thesis 4. Preparation for submitting all parts of the thesis 5. Discussing, revising, and improving the thesis, with particular emphasis on the empirical part, including analyzing the results, confirming the achievement of the research objectives, obtaining answers to the research questions, and preparing conclusions <p>Final approval of the thesis from a substantive, formal, and editorial perspective.</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZISZL3_U04] The student is able to use the acquired knowledge from a specific area of management and quality sciences in professional practice, including the management of medical entities.	The student is able to properly use the research methods he or she has proposed to achieve the adopted research goal.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZISZL3_K02] The student applies an analytical approach to problem solving, is able to independently search for solutions, as well as use expert opinions.	Is able to search for and collect information from various sources in order to synthesize views for research purposes.	[SK1] oral statement/conversation/discussion [SK3] text preparation/written work
	[ZISZL3_K01] The student is able to critically analyse the received content with particular emphasis on social and economic sciences.	The student is able to use many sources allowing him to recognize the complexity of various issues, phenomena and problems related to the topic and scope of work.	[SK1] oral statement/conversation/discussion [SK3] text preparation/written work
	[ZISZL3_W07] The student knows and understands the impact of medical activity on the environment and society, as well as the accompanying legal and ethical implications.	The student is able to properly use the research methods he or she has proposed to achieve the adopted research goal.	[SW1] oral statement/conversation/discussion [SW3] text preparation/written work
	[ZISZL3_W02] The student has advanced knowledge and understanding of the interrelationships that exist between the disciplines of management and quality sciences, economics and finance, social communication and media sciences, legal and sociological sciences, which are key to understanding the essence of effective and efficient management of health care units.	The student is able to create chapters of a bachelor's thesis in writing, analyze the phenomena that are the subject of interest in these chapters, making the appropriate selection of literature and sources for this topic	[SW1] oral statement/conversation/discussion [SW3] text preparation/written work
	[ZISZL3_U09] The student has the ability to formulate hypotheses and objectives and to solve a research problem using the literature on the subject and appropriately selected research methods.	The student is able to specify the research objective, research problems and related scientific questions in order to achieve the established goals and obtain answers to the research questions.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZISZL3_U08] The student correctly uses terminology from the field of economic sciences, especially from the discipline of management and quality sciences, clearly and communicatively expresses his position, using Polish and foreign language.	The student is able to collect, analyze and interpret appropriate sources and data, allowing him to achieve the aim of the work and prepare to solve the research problem	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZISZL3_K04] The student is able to supplement and expand the acquired knowledge and skills, strives to interdisciplinarily combine knowledge from different fields and disciplines of science.	The student is able to use the collected theoretical material to solve the assumed work objective and research problem and is prepared to further deepen knowledge and critically analyze it, being aware of the need to constantly update the sources needed for the proper preparation of the work.	[SK1] oral statement/conversation/discussion [SK3] text preparation/written work
	[ZISZL3_W01] The student has advanced knowledge of the discipline of management and quality sciences and understands its interrelationships with other social sciences.	The student has knowledge of the necessary research methods and of current literature and other sources needed to write a bachelor's thesis.	[SW1] oral statement/conversation/discussion [SW3] text preparation/written work
Subject contents	Application of management concepts, particularly the concept of outsourcing. Effectiveness in organizational management. Planning, organizing, including the creation of organizational structures, motivation, and control in the organizational management process. Building development strategies. Modeling economic processes. People in the management process.		
Prerequisites and co-requisites			

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		Thesis	51.0%
