<b>Subject objectives</b>	The aim of the course is to familiarise students with the basic concepts, principles and tools of marketing, as well as to show its role in the modern market economy. Students will gain knowledge about the evolution of marketing concepts, consumer behaviour mechanisms, market segmentation, creating value for the customer and marketing mix instruments. The course also aims to develop skills in analysing the marketing environment, designing promotional activities and applying marketing research in practice.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZL3_W03] The student has advanced knowledge and understanding of the nature and dynamics of the organization's relationship with stakeholders, the phenomena, processes, and interrelationships occurring in the organization's environment, and their impact on its functioning.	The student recognises and describes the relationships between the organisation and its stakeholders, indicating their importance for the functioning of the organisation.
