	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	16		3.0		106.0	125
<b>Subject objectives</b>	<p>The aim of the course is to prepare students to write a bachelor's thesis, in particular to develop the assumptions of the thesis - research goals and problems, allowing for the submission of two parts of the thesis:</p> <ol style="list-style-type: none"> <li>1. Preparation to determine the assumptions of the thesis, its goal, subject, subject and research problem</li> <li>2. Supervision of the collection and critical analysis of the subject literature and other sources relevant to the topic of the thesis</li> <li>3. Preparation to write the second part of the thesis</li> <li>4. Preparation to submit all parts of the thesis</li> <li>5. Discussion, correction and improvement of the thesis, with particular emphasis on the empirical part, including analysis of results, confirmation of achievement of the research goals, obtaining answers to research questions and drawing up conclusions</li> <li>6. Final acceptance of the thesis in terms of content, form and editorial.</li> </ol>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZL3_K01] The student is prepared to acquire the knowledge necessary to tackle cognitive and practical problems, particularly in management and quality sciences. Additionally, the students are ready to assess their current knowledge and the information they receive critically and consult with experts in case they have difficulties solving the problem independently.	The student uses the collected theoretical material to be able to solve the assumed goal of the work and the research problem and is prepared to further deepen his/her knowledge and critically analyze it, being aware of the need to constantly update the sources needed for the proper preparation of the work.	[SK1] oral statement/conversation/discussion [SK3] text preparation/written work
	[ZARZL3_U04] The student can correctly select and properly apply methods and tools from management and quality sciences, as well as economics and finance, to decision-making processes.	Student j correctly uses the research methods he/she proposes to achieve the adopted research goal.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_U03] The student can obtain data from properly selected and verified sources and use these data to analyse and evaluate economic processes and phenomena.	The student collects, analyses and interprets appropriate sources and data, allowing him/her to achieve the aim of the work and prepare to solve the research problem.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_W05] The student has advanced knowledge and understanding of methods and techniques for acquiring, developing and using data in decision-making and management processes.	The student indicates appropriate research methods and current literature and other sources necessary to write a bachelor's thesis.	[SW1] oral statement/conversation/discussion [SW3] text preparation/written work
	[ZARZL3_U10] The student can convey information clearly and effectively, presenting their opinions using management and quality sciences terminology across various media.	The student specifies the research objective, research problems and related scientific questions in order to achieve the established objectives and obtain answers to the research questions.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_U07] The student can prepare written papers, presentations, and oral speeches on management issues.	The student creates two chapters of a bachelor's thesis in written form, analyzes the phenomena that are the subject of interest in these chapters, and selects literature and sources appropriate to the topic.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_U02] The student can identify problems related to the organization's functioning, its processes, and its relations with the environment and propose adequate solutions.	The student uses many sources to recognize the complexity of various issues, phenomena and problems related to the topic and scope of the work.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_K02] The student is ready to perform professional roles responsibly, observe professional ethics and require this of others, and care for the achievements and traditions of the management profession.	The student recognizes the importance of demonstrating an ethical attitude by observing appropriate principles and assumes responsibility for conducting his/her research reliably.	[SK1] oral statement/conversation/discussion [SK3] text preparation/written work

Subject contents	<p>Prof. dr hab. Małgorzata Z. Wiśniewska: Quality, environmental, occupational health and safety management; Concept (TQM, Six Sigma, Lean management, Kaizen and others), quality management methods, tools and their application as well as the culture of quality and excellence; Quality and food safety management and food safety culture; Quality of services, including medical, catering, educational, banking and others; Patient safety culture; Sustainable development.</p> <p>Dr hab. prof. UG. Paweł Antonowicz: Strategic management, business development scenario analyses, investment plans, business plans, macro/micro environment analyses; Early warning systems against insolvency/bankruptcy of enterprises; as well as micro and macro conditions of bankruptcy and restructuring of enterprises in Poland - economic analysis of law and managerial aspects; Financial, economic and financial analysis, managerial decisions, process optimization and business modeling; Capital market, stock exchange, macroeconomics and the impact of MACRO factors on selected stock exchange indices, as well as the volatility of share prices of their components.</p> <p>dr hab. prof. UG Joanna Sadkowska: Family entrepreneurship; Family businesses on the Polish market; Cultural conditions of family business activities; Risk culture; Risk culture in project management.</p> <p>dr Mariusz Chmielewski: Risk management in an organization; value management of business entities; Sustainable development of an organization; Organizational environment as a factor influencing its effectiveness; Financial restructuring as a tool for rebuilding value; Project management in an organization.</p> <p>dr inż. Ewa Malinowska: Quality management and safety of food products; Occupational health and safety management; Information security management; Tools for measuring and improving the quality of products, systems, services; Economics and costs of quality; Standardized management systems; Modern enterprise management systems.</p> <p>Dr. Paulina Nogal: Economic and legal aspects of the functioning of business activities, in particular: The use of unfair competition, the use of unfair market practices, the use of monopolistic practices; The use of trademarks by companies and the protection of these marks; The use of similar marks to impersonate competitors; Copyrights and their protection in various fields of exploitation; Crimes against economic turnover (in particular actions to the detriment of creditors); The company's environment in micro and macro terms.</p> <p>Dr. Renata Płoska: Ethical aspects of business activities; Responsible and sustainable business (ESG); Responsible and sustainable marketing; Communication in the field of sustainable and responsible business; The functioning of entities in the tourism sector; Responsible and sustainable tourism; Maritime tourism and other sectors of the so-called blue economy; The functioning of service and production entities; Leisure markets; Stakeholder relationship management; Analysis of the company's environment and potential.</p> <p>dr Joanna Próchniak: Issues of sustainable development of enterprises and management of sustainable value of the enterprise; Sustainable reporting; Sustainable finance; Assessment and development of enterprise activities; Incubation, development and financing of start-ups.</p> <p>dr Jędrzej Siciński: Issues related to bankruptcies and insolvencies of enterprises, with particular emphasis on early warning systems against bankruptcy (EWS); Contemporary challenges of strategic management (including planning nihilism); Issues of management of high technologies and analysis of the potential of so-called "technology giants" and the complexity of their relations with the environment. Practical dimension of knowledge about management, including starting a business, commercialization and incubation of entrepreneurship.</p> <p>dr Małgorzata Szymańska-Brałkowska: Issues related to quality management, TQM; Japanese techniques of quality improvement (including Lean Management, Kaizen, Green Lean, Lean Office, Lean Healthcare) in manufacturing and service enterprises; Sustainable organizations - issues related to sustainable development in enterprises; Environmental management in the enterprise - environmental management systems, including ISO 14001, EMAS; Ecological aspects in conducting business activities, ecological initiatives in the enterprise; environmental management instruments; Excellence models - including EFQM, CAF.</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria assessment and approval of all parts of the work, in terms of theory, research, including methodological, editorial, formal; in accordance with the work schedule set by the supervisor	Passing threshold 51.0%	Percentage of the final grade 100.0%
Recommended reading	Basic literature	Szkutnik Z., Metodyka pisania pracy dyplomowej, Wydawnictwo Poznańskie, Poznań 2005
