Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZL3_U02] The student can identify problems related to the organization's functioning, its processes, and its relations with the environment and propose adequate solutions.	The student has knowledge of the principles of substantive and formal preparation for writing a bachelor's thesis and is familiar with the relevant, basic scientific literature needed to write this thesis.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_U10] The student can convey information clearly and effectively, presenting their opinions using management and quality sciences terminology across various media.	The student is able to develop a preliminary outline of his/her bachelor's thesis, defining its plan, structure, literature, main theoretical, methodological and practical assumptions regarding the undertaken research problem.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_K01] The student is prepared to acquire the knowledge necessary to tackle cognitive and practical problems, particularly in management and quality sciences. Additionally, the students are ready to assess their current knowledge and the information they receive critically and consult with experts in case they have difficulties solving the problem independently.	The student is able to present his/her knowledge and views on organizational management in written and oral form	[SK1] oral statement/conversation/discussion [SK3] text preparation/written work
	[ZARZL3_U01] The student can analyze and interpret social and economic processes and phenomena in the context of business decision-making, using knowledge and tools from management and quality sciences, economics and finance.	The student evaluates the complex management conditions in various organizations from the point of view of internal and external conditions.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_U07] The student can prepare written papers, presentations, and oral speeches on management issues.	The student knows the management functions of commercial and public sector organizations.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[ZARZL3_W05] The student has advanced knowledge and understanding of methods and techniques for acquiring, developing and using data in decision-making and management processes.	The student identifies and interprets complex problems and phenomena resulting from the role and importance of the main resource, i.e. the human being, both in internal relations and in the context of the organization's immediate and distant environment in terms of the set work goal.	[SW1] oral statement/conversation/discussion [SW3] text preparation/written work
