

Subject card

Subject name and code	Sustainable Business Models, PG_00178770						
Field of study	Management						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2026/2027		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	part-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			6.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Department of Strategic Development and Quality Science -> Faculty of Management -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Ewa Malinowska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	8.0	24.0	0.0	0.0	0.0	32
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	32		2.0		116.0	150
Subject objectives	The aim of the course is to familiarize students with the possibilities of practical use of new business models that take into account the sustainable development paradigm and the possibilities of obtaining financing for their introduction and maintenance.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZMU2_U02] The student can identify complex issues related to the organization's operations, the processes within it, and its relationships with a changing environment, proposing appropriate and innovative solutions.	The student proposes sustainable solutions and applications of the selected sustainable business model in the enterprise	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[ZARZMU2_W08] The student possesses a deep understanding of management processes, including their objectives, specificity, complexity, and how they relate to other organizational processes, alongside the challenges and dilemmas presented by a dynamically changing environment.	The student characterizes and compares business models based on the concept of sustainable development and explains the functioning of sustainable finance and the role of enterprises and financial institutions in sustainable development.	[SW4] test/exam - oral or written
	[ZARZMU2_W09] The student possesses a comprehensive understanding of the principles involved in the creation and development of both traditional and modern forms of entrepreneurship, drawing from management, quality sciences, economics, and finance.	The student explains the principles of designing sustainable business models and the principles of evaluating enterprises' activities in this area.	[SW4] test/exam - oral or written
	[ZARZMU2_U06] Students can utilize and integrate structured, detailed knowledge of management, quality sciences, economics, and finance to address dilemmas and formulate solutions, including innovative ones, to complex or atypical management problems that arise in professional settings.	The student selects and applies selected solutions and tools for designing sustainable business models	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written
[ZARZMU2_K03] The student is ready to think and act entrepreneurially and responsibly, initiate, coordinate, and participate in projects that benefit the social environment and the public interest, and inspire others in this area.	The student engages in tasks and projects aimed at developing business solutions for sustainable development.	[SK2] presentation/project/paper/report
