Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZMU2_U02] The student can identify complex issues related to the organization's operations, the processes within it, and its relationships with a changing environment, proposing appropriate and innovative solutions.	The student diagnoses problems arising from a misalignment of organisational structure, management style, or HR policy, and designs appropriate HR solutions, taking into account the organisational context and external environment.	[SU5] implementation of a problem task
	[ZARZMU2_U05] The student can identify and correctly apply legal, professional, and ethical standards in business decision-making.	The student identifies and evaluates ethical and social dilemmas resulting from employee management and formulates recommendations that comply with applicable ethical standards and legal regulations, particularly with regard to HR activities and diversity management.	[SU2] presentation/project/paper/report [SU5] implementation of a problem task
	[ZARZMU2_K02] The student is ready to perform professional roles responsibly, observe and develop the principles of professional ethics and act to comply with them, as well as to care for the development of achievements and maintain the ethos and tradition of professions related to management.	The student demonstrates readiness to make personnel decisions with an awareness of social responsibility, ethical values, and the impact of such decisions on employee well-being and development.	[SK2] presentation/project/paper/report [SK5] implementation of a problem task
[ZARZMU2_W04] The student possesses a deep understanding of human behavior, including individual, group, and organizational dynamics within an organization.	The student analyses and interprets complex relationships between organisational structure, organisational culture, and the role of the employee within the organisation, and explains how these factors influence individual and group behaviours.	[SW4] test/exam - oral or written
