	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	30	4.0	16.0	50		
Subject objectives	<p>The aim of the course is to prepare students for writing their thesis, particularly for developing its foundational elements objectives and research problems leading to the submission of two chapters of the thesis.</p> <ol style="list-style-type: none"> 1. Preparation for defining the thesis assumptions, including its objective, subject, scope, and research problem 2. Supervision of the collection and critical analysis of relevant literature and other sources appropriate to the thesis topic 3. Preparation for writing the empirical part of the thesis 4. Revision and preliminary approval of Chapter I, and preparation and discussion of the draft version of Chapter II 						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZMU2_U07] Students can create detailed written papers, including reviews, analyses, or research, along with presentations and oral discussions on management topics.	The student is able to write down in the form of the thesis' subsequent chapters the results of his/her analyses.	[SU3] text preparation/written work
	[ZARZMU2_K01] The student is prepared to gain and enhance the knowledge required to solve both cognitive and practical problems, particularly in the areas of management and quality sciences. Additionally, the student is capable of critically evaluating the knowledge and content received and will seek guidance from experts if they encounter difficulties in resolving a problem independently.	The student knows how to acquire the knowledge for the solution of the research problem defined for her/his thesis.	[SK3] text preparation/written work
	[ZARZMU2_U02] The student can identify complex issues related to the organization's operations, the processes within it, and its relationships with a changing environment, proposing appropriate and innovative solutions.	The student can use his analysis of literature and research results for deriving conclusions and recommendations for the organizations being the objects of his research for the thesis.	[SU3] text preparation/written work
	[ZARZMU2_U13] The student can formulate and verify hypotheses for simple research problems, acquire structured knowledge in management and quality sciences, learn about economics and finance, and appropriately select research methods.	The student formulates the aims and hypotheses of the dissertation.	[SU3] text preparation/written work
	[ZARZMU2_U03] Students can obtain and verify data from selected sources, present and analyze economic processes and phenomena.	Student conducts research diligently.	[SU3] text preparation/written work
[ZARZMU2_W05] The student possesses a thorough understanding of advanced methods and techniques for acquiring, developing, and utilizing data in complex decision-making and management processes.	Student collects and analysis research data.	[SW3] text preparation/written work
