Subject objectives	The aim of the course is to deepen students' knowledge of strategic marketing principles and, thanks to this knowledge, develop their analytical skills in recognising, assessing and interpreting complex phenomena occurring in the market environment and their impact on the organisation.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZMU2_W03] The student possesses a deep understanding of the relationship between the organization and its stakeholders. They are also aware of the complex phenomena and processes that occur in the organization's environment, including their variability and impact on the organization's functioning.	The student has an in-depth knowledge and understanding of the principles of analysing and evaluating an organisation's relations with its market environment and stakeholders, is able to interpret complex processes occurring in a competitive, market and social environment, and predict their impact on an organisation's marketing strategies.	[SW4] test/exam - oral or written
	[ZARZMU2_W06] The student possesses a thorough understanding of the principles of rational decision-making related to individual resources, functional areas within the organization, processes, and management levels. This understanding is based on a well-structured and theory-supported foundation in management, quality sciences, economics, and finance.	The student has an in-depth knowledge and understanding of the principles of rational strategic decision-making in marketing, using analytical approaches, strategic models and tools supporting decision-making processes in resource and marketing management, based on knowledge of management, economics and finance.	[SW4] test/exam - oral or written
	[ZARZMU2_U02] The student can identify complex issues related to the organization's operations, the processes within it, and its relationships with a changing environment, proposing appropriate and innovative solutions.	The student identifies complex decision-making problems and strategic challenges in the field of marketing resulting from the organisation's relations with a dynamic environment and proposes adequate, including innovative, strategic solutions that take into account market volatility, stakeholder behaviour and macroeconomic trends.	[SU2] presentation/project/paper/report
	[ZARZMU2_K01] The student is prepared to gain and enhance the knowledge required to solve both cognitive and practical problems, particularly in the areas of management and quality sciences. Additionally, the student is capable of critically evaluating the knowledge and content received and will seek guidance from experts if they encounter difficulties in resolving a problem independently.	The student is ready to independently and systematically deepen their knowledge of strategic marketing and critically evaluate information and solutions, including using expert opinions and specialist sources when analysing complex decision-making and strategic problems of organisations in a dynamic market environment.	[SK2] presentation/project/paper/report
	[ZARZMU2_U06] Students can utilize and integrate structured, detailed knowledge of management, quality sciences, economics, and finance to address dilemmas and formulate solutions, including innovative ones, to complex or atypical management problems that arise in professional settings.	The student is able to use and integrate knowledge in the field of strategic marketing, management, economics and finance to analyse and resolve complex or unusual decision-making dilemmas arising in the area of relations between organisations and a dynamic market environment, proposing appropriate and innovative strategic solutions.	[SU2] presentation/project/paper/report
