Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PAGMU2_KO02] The student is capable and willing to use the knowledge and skills acquired in social activities; he is also ready to initiate the pursuit of the public interest, particularly through substantive support for a specific organization, performing his profession diligently and ethically; he is prepared to carry out tasks in the organization in an entrepreneurial manner.	Understands the mechanisms of functioning of different types of organizations and is therefore ready to use the acquired knowledge and skills in social, public or economic activities and to carry out tasks in the organization in an entrepreneurial manner.	[SK1] oral statement/conversation/discussion
	[PAGMU2_WG01] At an advanced level, the student identifies and understands the facts, phenomena, and their interactions related to the functioning of public authorities, administration, civil servants, the economy, and economic entities. He also knows the terminology, methods, and theories derived from legal sciences and related disciplines, relevant to issues concerning administration and the economy.	Provides a deeper understanding of the mechanisms of operation of various types of organizations, especially those of a public administration nature, as well as the interdependencies and types of cooperation between them.	[SW4] test/exam - oral or written
	[PAGMU2_UK02] The student is able to communicate professionally on issues related to administration and the economy, including formulating clear messages for both specialists and non-specialists in administration. He can also prepare an independent, in-depth written report and an oral presentation on topics related to administration and the economy.	Is able to use the knowledge acquired in the subject to improve interpersonal communication in professional work.	[SU1] oral statement/conversation/discussion
	[PAGMU2_WG03] The student comprehensively recognizes and explains theories and methods related to the functioning and management of organizations, including those concerning human resource management, office administration, management accounting, as well as conducting negotiations and resolving disputes.	It provides an in-depth understanding of and explains the theories and methods related to the functioning of various types of organizations and the process of managing them.	[SW4] test/exam - oral or written
