	Number of study hours	5		0.0		45.0	50
Subject objectives	The aim of the course is to familiarize the student with the mechanisms for carrying out public tasks by entities that do not constitute public administration in the institutional sense. The applicable legal provisions provide for various forms of privatization of public tasks.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PAGMU2_WG01] At an advanced level, the student identifies and understands the facts, phenomena, and their interactions related to the functioning of public authorities, administration, civil servants, the economy, and economic entities. He also knows the terminology, methods, and theories derived from legal sciences and related disciplines, relevant to issues concerning administration and the economy.	The student identifies and understands, in an advanced manner, the facts, phenomena, and interrelations concerning the functioning of public authorities, administration bodies, officials, the economy, and economic entities; knows and is able to explain the specialized terminology, methods, and theories of legal sciences and related disciplines relevant to issues concerning administration and the economy. The student is able to analyze and interpret complex legal, administrative, and economic phenomena using appropriate methods and theories;	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[PAGMU2_WK04] At an advanced level, the student describes and understands the principles of the functioning of public authority bodies, administration, and economic entities, as well as identifies current dilemmas related to these issues.	The student identifies and understands, at an advanced level, facts, phenomena, and the relationships between them in the context of the functioning of public authorities, administration, officials, the economy, and economic entities. The student knows and is able to explain specialized terminology as well as methods and theories from legal sciences and related disciplines used in the analysis of administrative and economic issues.	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[PAGMU2_WK05] The student identifies key phenomena occurring in the market economy and public finance, and knows and understands the basic principles regarding the creation, development, and functioning of fundamental forms of entrepreneurship.	The student identifies basic phenomena occurring in the market economy and public finance; knows and understands the fundamental principles related to the creation, development, and functioning of basic forms of entrepreneurship.	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
	[PAGMU2_KK01] The student is ready to critically assess the usefulness of the procedures and practices learned, related to various areas of the curriculum of his studied field. He is open to the importance of knowledge in solving theoretical and practical problems and effectively justifying assessments, opinions, and proposed solutions. When necessary, he seeks expert opinions, including those from legal doctrine and jurisprudence.	The student is prepared to critically assess the usefulness of the acquired procedures, methods, and practices in relation to various areas covered by the study program; demonstrates openness to the value of theoretical and practical knowledge in solving problems and is able to formulate and justify opinions, positions, and proposed solutions effectively; understands the need to seek expert opinions – including scholarly doctrine and case law – and is able to use them appropriately in reasoning and argumentation.	[SK1] oral statement/conversation/ discussion [SK2] presentation/project/paper/ report
