Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	10		0.0		40.0	50
Subject objectives	The aim of the course is to discuss and explain the functioning of the basic institutions of public maritime law, the process of their formation and evolution. Examples of cases from the case law of Polish and foreign courts allow students to familiarize themselves with the subject matter through the prism of practical solutions. They also help to master the conceptual framework of maritime law.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PAGMU2_W02] at an advanced level, knows and understands key regulatory issues related to the structure of the state, public administration, and the work of civil servants, as well as the legal and organizational conditions of selected areas of economic and social life.	possesses in-depth knowledge and understanding of key regulatory issues concerning the structure of maritime administration and the work of a maritime official, and understands the legal and organizational frameworks governing selected areas of the maritime economy	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion
