	Number of study hours	10		0.0		15.0	25
Subject objectives	<p>The aim of the exercises is to deepen students' knowledge and practical skills in the application of competition law, both at the national and EU level. The classes are designed to enable students to:</p> <ul style="list-style-type: none"> • recognize and analyze anti-competitive practices, such as agreements restricting competition, abuse of a dominant position, or prohibited concentrations of undertakings, • apply substantive and procedural provisions of competition law to specific factual situations, • analyze decisions of competition authorities (in particular the European Commission and the Office of Competition and Consumer Protection), • interpret and argue legal cases using the case law of the Court of Justice of the European Union and national courts, • develop skills in working with legal acts, case studies, and official documents (e.g., guidelines, decisions, merger notifications). <p>The exercises prepare students to independently use competition law instruments in economic and legal practice, as well as to further specialize in this field of law.</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PAGMU2_KK01] The student is ready to critically assess the usefulness of the procedures and practices learned, related to various areas of the curriculum of his studied field. He is open to the importance of knowledge in solving theoretical and practical problems and effectively justifying assessments, opinions, and proposed solutions. When necessary, he seeks expert opinions, including those from legal doctrine and jurisprudence.	The student is able to critically assess the usefulness of the procedures and practices learned in the field of competition law, justify their own opinions and proposed solutions, and, if necessary, draw on expert opinion, doctrine, and case law.	[SK1] oral statement/conversation/discussion [SK5] implementation of a problem task
	[PAGMU2_WK05] The student identifies key phenomena occurring in the market economy and public finance, and knows and understands the basic principles regarding the creation, development, and functioning of fundamental forms of entrepreneurship.	The student knows and understands the basic phenomena of the market economy and public finance, as well as the principles of creation, development, and functioning of basic forms of entrepreneurship, taking into account aspects of competition law.	[SW4] test/exam - oral or written
	[PAGMU2_WG01] At an advanced level, the student identifies and understands the facts, phenomena, and their interactions related to the functioning of public authorities, administration, civil servants, the economy, and economic entities. He also knows the terminology, methods, and theories derived from legal sciences and related disciplines, relevant to issues concerning administration and the economy.	The student is able to recognize and understand facts, phenomena, and their interactions related to the functioning of public authorities, administration, officials, and economic entities, as well as apply terminology, methods, and theories from legal sciences and related disciplines in the context of competition law.	[SW3] text preparation/written work
	[PAGMU2_WK04] At an advanced level, the student describes and understands the principles of the functioning of public authority bodies, administration, and economic entities, as well as identifies current dilemmas related to these issues.	The student is able to describe and understand in depth the principles of functioning of public authorities, administration, and economic entities, as well as identify current dilemmas related to their activities in the context of competition law.	[SW3] text preparation/written work
Subject contents	<p>The exercises serve as practical application of knowledge in the field of competition law in the context of public administration and economic practice. During the classes, key issues of substantive and procedural competition law are discussed, taking into account EU and national law.</p> <p>In particular, the course covers:</p> <ol style="list-style-type: none"> 1. Prohibited agreements restricting competition recognizing illegal practices (cartels, price fixing, market sharing), analysis of decisions by the Office of Competition and Consumer Protection (UOKiK) and the European Commission. 2. Abuse of a dominant position identifying abuses, assessing market position, exclusionary and exploitative practices. 3. Control of concentrations of undertakings concentration notification procedure, notification criteria, prohibition and conditional decisions. 4. Powers of competition authorities competences of the Office of Competition and Consumer Protection (UOKiK), the European Commission, cooperation within the European Competition Network (ECN). 5. Proceedings in cases of practices restricting competition initiation, interim measures, decisions, remedies. 6. System of sanctions and liability of undertakings fines, leniency programs. 7. Analysis of case law and case studies work on real examples, interpretation and application of regulations to practical situations.
