	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		20.0		30.0	80
Subject objectives	To familiarize students with the development of psychological thought throughout history, including the origins of basic schools and trends, and above all those that build modern psychology. Sensitivity to the cause-and-effect relationship of discoveries and approaches in psychology. Presentation of the importance of comparative studies and critical assessment of individual psychological trends. Teaching the ability to build and specify one's own view on psychological trends. Arousing cognitive curiosity about the future of psychological discoveries.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
