

Subject card

Subject name and code	Architectural and urban planing foundations of spatial management , PG_00191723						
Field of study	Spatial Management						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2026/2027		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		3.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Joanna Poczobut				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		45.0	75
Subject objectives	Understanding the complexity of space; identifying forms and qualities of landscape; understanding the principles and elements of spatial composition; ability to evaluate space;						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[GPL3_W07] knows and understands the methods and tools for shaping spatial development		Presents urban planning and architectural forms, methods and tools used in spatial management.		[SW2] presentation/project/paper/report		
	[GPL3_U02] correctly identifies and explains the conditions of spatial management of a particular area and forecasts the impact of basic social processes on the structure of spatial development, and on this basis proposes adequate actions within spatial policy, in particular in relation to Polish maritime areas and voivodeships of northern Poland		proposes measures to create high-quality public spaces in line with the social, economic and political conditions prevailing in a given area		[SU5] implementation of a problem task		
	[GPL3_K04] is ready to initiate and actively participate in activities for the benefit of spatial order and sustainable development of the region, country and Europe		demonstrates responsibility for actions aimed at preserving the cultural heritage of the region, country and Europe		[SK2] presentation/project/paper/report		

Subject contents	Part 1: Assessment of landscape composition Landscape perception a path of impressions. Features and properties of landscape composition architectural and landscape interior. Principles and elements of landscape composition. Repairing the contemporary image of public space. Analysis of macro-landscape structures panorama. Historical landscapes. Protection and shaping of the cultural landscape - on the example of the development of a selected village. Part 2: Issues of composition and aesthetics in design. Introduction to urban planning - basic concepts. Urban composition in space (composition components, types of urban interiors). Types of space (public, semi-public, semi-private, etc.) and issues related to shaping the character of a place.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	exercises; the final grade is the average of the two subject grades.	51.0%	100.0%
