

Subject card

Subject name and code	Geological and mining law, PG_00193002						
Field of study	Geology						
Date of commencement of studies	October 2026		Academic year of realisation of subject			2028/2029	
Education level	Bachelor's studies		Subject group			Obligatory subject group in the field of study Humanistic-social subject group	
Mode of study	full-time studies		Mode of delivery			at the university	
Year of study	3		Language of instruction			Polish polish	
Semester of study	5		ECTS credits			2.0	
Learning profile	academic		Assessment form			credit	
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr Grzegorz Julke				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		1.0		19.0	50
Subject objectives	The aim of the lecture is to familiarize students with the regulations governing geological and mining activities, including the principles and conditions for commencing, conducting, and terminating operations related to geological work, the extraction of minerals from deposits, the underground storage of substances (without the use of tanks), underground waste disposal, and the underground storage of carbon dioxide.						
Learning outcomes	Course outcome		Subject outcome			Method of verification	
	[GEOLL3_W08] knows the principles of occupational health and safety, legal regulations conditioning geological and engineering activities		the student is familiar with the terminology as well as the fundamental principles and concepts of geological ang mining law			[SW4] test/exam - oral or written	

Subject contents	1) structure of a legal norm, 2) Mining ownership, mining usufruct, and other mining rights, 3) Concessions, 4) Qualifications, experts, and professional liability, 5) geological work, 6) mining plant, its operation and mine rescue, 7) fees, 8) liability for damages, 9) Register of mining areas and closed underground carbon dioxide storage sites, 10) Administration, the State Geological Survey, the National Administrator of Underground Carbon Dioxide Storage Sites, and supervision, 11) fines, 12) penal provisions								
Prerequisites and co-requisites									
Assessment methods and criteria	<table><tr><td>Subject passing criteria</td><td>Passing threshold</td><td>Percentage of the final grade</td></tr><tr><td>exam</td><td>51.0%</td><td>100.0%</td></tr></table>	Subject passing criteria	Passing threshold	Percentage of the final grade	exam	51.0%	100.0%		
Subject passing criteria	Passing threshold	Percentage of the final grade							
exam	51.0%	100.0%							
Recommended reading	Basic literature	Bartosz Rakoczy (red), Geological and Mining Law. Commentary, Warsaw 2015,							
	Supplementary literature	Hubert Schwarz (red.): Geological and Mining Law. Volumes I and II. Commentary, Warsaw 2013 Bartosz Rakoczy: Selected Issues in Geological and Mining Law, Warsaw 2016
