

Subject card

Subject name and code	Bachelor's seminar II - seminar, PG_00193087						
Field of study	Geology						
Date of commencement of studies	October 2026	Academic year of realisation of subject				2028/2029	
Education level	Bachelor's studies	Subject group				Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study	
Mode of study	full-time studies	Mode of delivery				at the university	
Year of study	3	Language of instruction				Polish	
Semester of study	6	ECTS credits				3.0	
Learning profile	academic	Assessment form				credit	
Conducting unit	Laboratory of Marine Geology -> Department of Chemical Oceanography and Marine Geology -> Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Marzenna Stempień-Sałek				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		3.0		42.0	75
Subject objectives	<p>The aim of the course is:</p> <ol style="list-style-type: none"> improving the ability to present the results of independent work based on source material in the field of mineral ore geology, historical geology with elements of paleontology, tectonics and geological cartography, applied geology and hydrogeology, and geophysics improving skills in using various sources of information and critically evaluating them improving the formulation of clear, concise, and factually correct statements on a given topic conducting scientific discussions using scientific terminology appropriate for a given subject, verifying the views presented acquiring the ability to correctly justify selected theses on the topic under discussion with appropriate criticism preparation for the bachelor's degree exam 						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GEOLL3_K03] is willing to exercise caution and criticism in receiving information from scientific literature, the Internet and other media related to natural sciences	is prepared to be cautious and critical in accepting information from scientific literature, the internet and other media relating to the geological sciences	[SK2] presentation/project/paper/report
	[GEOLL3_U03] is able to use source information in Polish and English, including archival and electronic databases, in the field of geological issues	independently searches for, analyses and critically evaluates source information in Polish and English - both contemporary and archival - on geological issues, using a variety of sources, including electronic databases, scientific repositories and the resources of digital libraries	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[GEOLL3_U09] is able to use a foreign language in the field of geology, in accordance with the requirements specified for level B2 of the Common European Framework of Reference for Languages	is able to use appropriate scientific terminology in a foreign language in the field of selected geological topics	[SU1] oral statement/conversation/discussion
	[GEOLL3_K04] is ready for self-criticism and drawing conclusions based on self-analysis; is willing to behave in compliance with professional ethics	is able to carry out a critical self-analysis of his/her own actions and attitudes presented during the seminar, identifies areas for improvement and formulates conclusions for further scientific and professional development, is guided by the principles of professional ethics, demonstrates readiness to accept constructive criticism, and respects the norms of academic discussion, maintaining an attitude of respect for dissenting views	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report
	[GEOLL3_U11] can strive to systematically expand and update geological knowledge and raise professional qualifications	is able to systematically develop and update his/her knowledge and improve professional qualifications in the field of geology	[SU2] presentation/project/paper/report
	[GEOLL3_U08] is able to write, report and properly illustrate scientific work in Polish and English on the basis of available sources on a selected topic in the field of geological issues	improves the ability to present selected geological issues and formulate appropriate scientific theses	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
[GEOLL3_K02] is willing to take full responsibility in the field of actions taken and to comply with the principles of professional ethics and intellectual honesty, is aware of the importance of a professional approach in every situation	is prepared to adhere to the principles of intellectual integrity and is aware of the importance of a professional approach to the use of source material in the field of geology	[SK2] presentation/project/paper/report [SK8] observation of student's independent or team work	
Subject contents	<p>Presentation and discussion of issues concerning a selected geological problem in the field of: geology of mineral deposits, historical geology with elements of paleontology, tectonics and geological cartography, applied geology and hydrogeology, geophysics.</p> <p>Practical use of literature sources, internet and other media using specialised geological terminology.</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	oral presentation	51.0%	75.0%
	participation in discussions	51.0%	25.0%
Recommended reading	Basic literature	textbooks and scientific articles in Polish and English in the field of the issues dealt with	
	Supplementary literature	textbooks and scientific articles in Polish and English in the field of the issues dealt with	
	eResources addresses		

Example issues/ example questions/ tasks being completed	Topics for the diploma exam will be given in class
Work placement	Not applicable
